A Report on Guest Lecture on

"Ethics and Legal Consideration Dental Care"

Jointly organized by

Dept. of Conservative Dentistry and Endodontics
DY Patil Dental School, Pune

Date- 7th February, 2023 Venue –Conference Hall, Central Library

Background-

Designing an Ethics and Legal Consideration Dental Care Guest Lecture for dental students involves incorporating principles of integrity, professionalism, and ethical decision-making tailored to the unique challenges and responsibilities within the field of dentistry. Key components may include, Introduction to Ethical Leadership, Case Studies, Professionalism and Integrity

AIM: - The aim of an Ethics and Legal Consideration Dental Care Guest Lecture for dental students could be to cultivate a strong understanding of ethical principles and practices within the context of dentistry

OBJECTIVE:-

- Cultivating awareness: Enhancing students' understanding of ethical dilemmas commonly faced in dental practice.
- Developing decision-making skills: Providing tools and frameworks to help students navigate complex ethical situations they may encounter in their careers.
- Fostering integrity: Encouraging a commitment to upholding ethical standards and professional integrity in dental practice.

SCOPE-

- Ethical principles in dentistry: Discussing core ethical principles such as beneficence, non-malfeasance, autonomy, and justice as they apply to dental practice.
- Patient-centered care: Emphasizing the importance of prioritizing patient well-being, informed consent, and effective communication in dental practice.
- Professionalism and integrity: Exploring the ethical responsibilities of dentists, including honesty, transparency, and maintaining professional boundaries**.**

LEARNING OUTCOMES

- Understanding ethical principles: Gain a comprehensive understanding of foundational ethical principles such as autonomy, beneficence, non-malfeasance, and justice as they apply to dental practice.

- Ethical decision-making skills: Develop practical skills in ethical decision-making, including assessing ethical dilemmas commonly encountered in dental practice and identifying appropriate courses of action.

- Professional integrity: Cultivate a strong sense of professional integrity and ethical responsibility, emphasizing the importance of honesty, transparency, and accountability in dental practice.

A report on Guest Lecture on "Ethics and Legal Consideration Dental Care"

. Introduction: Ethics and Legal Consideration Dental Care Guest Lecture held at D Y Patil Dental School Lohegaon pune, aimed to embark on a Journey to explore the vital intersection of dentistry and ethical leadership. Organized by the college's wellness committee, the workshop sought to address the mental health challenges faced by students in their academic and professional journey.

2. Schedule:

9:30 - 10:00 am - Inauguration:

Dr. Anand Shigli, Dean of DY Patil Dental School, inaugurated the programme , emphasizing the importance of qualitative research in the dental field.

10:00 - 11:00 am - Introduction to Ethics and Legal Consideration Dental Care

Dr. Upendra Hoshing provided an insightful introduction to Ethical Leadership.

11:05 am - 12:00 noon - Understanding the importance of ethical decision making

Dr. Upendra Hoshing discussed the importance understanding the ethical decision making.

12:00 - 1:00 pm Building ethical awareness and integrity

Dr. Upendra Hoshing explained about Building ethical awareness and integrity.

1:00 - 1:30 pm Valedictory and Certificate distribution

.

4. Conclusion: Ethics and Legal Consideration Dental Care at D Y Patil Dental School concludes as an Ethics In Action workshop for dental students could emphasize the importance of integrating ethical principles into their practice. It could highlight the role of integrity, empathy, and professionalism in providing quality patient care. Encouraging students to reflect on their personal values and how they can apply them in their future careers as dental professionals would also be beneficial

5. Acknowledgments: A special thanks to Dr. Anand Shigli, Dean for their contributions to the success of the guest lecture. Thanks also to all participants for their active engagement and contributions

A Report on Guest Lecture on

"Dental Case Presentations-Key Factor"

Jointly organized by

Dept. of Conservative Dentistry and Endodontics.
DY Patil Dental School, Pune

Date-18th September 2023 Venue –Conference Hall, Central Library

Background-

A Guest Lecture on Dental Case Presentations-Key Factor for dental students would typically cover topics such as effective study techniques, time management strategies, stress management, and exam-taking strategies specific to dental school. It might also include sessions on organizing study materials, utilizing resources effectively

AIM:- to enhance educators' skills in designing effective and fair assessments that accurately evaluate students.

OBJECTIVE:-

- Providing strategies for effective time management during exam preparation.
- Offering tips for organizing study materials and resources.
- Teaching effective study techniques tailored to dental school curriculum.

SCOPE-

A Guest Lecture on preparing for exams tailored for dental students could cover topics such as effective study techniques, time management strategies, resources for exam preparation specific to dentistry, managing stress and anxiety during exams, and tips for practical and clinical exam preparation

LEARNING OUTCOMES: - at the end of the Guest Lecture the participants will be able to;

- Understanding effective study techniques tailored to dental curriculum.
- Learning time management strategies to balance academic and clinical responsibilities.
- Acquiring test-taking strategies specific to dental exams, such as case-based questions or practical assessments.

A Report on Guest Lecture on

"Innovate today Transform Tomorrow"

Jointly organized by

Dept. of Conservative Dentistry and Endodontics
DY Patil Dental School, Pune

Date- 8th February, 2022 Venue –Conference Hall, Central Library

Background-

Hosting a Guest Lecture on “Innovate today Transform Tomorrow " for students in a dental college can be highly beneficial. It helps the students in Provide examples of innovative technologies, materials, and techniques in dentistry

AIM:-The aim of the Guest Lecture could include fostering creativity, encouraging critical thinking, and inspiring them to identify areas within dentistry where innovation is needed or can be improved upon. This Guest Lecture could also aim to develop their problem-solving skills, enhance their understanding of patient needs, and prepare them to be proactive in addressing challenges within the dental field through innovative solutions**.**

OBJECTIVE:-

- **Promoting Creative Thinking:** Encourage dental students to think outside the box and explore innovative solutions to challenges within dentistry.
- **Developing Problem-Solving Skills:** Provide students with opportunities to identify gaps or inefficiencies in current dental practices and develop innovative solutions to address them.
- **Fostering Entrepreneurial Mindset:** Equip students with the mindset and skills necessary to recognize and capitalize on opportunities for innovation within the dental industry, potentially leading to entrepreneurial ventures.
- **Enhancing Patient Care:** By identifying opportunities for innovation, students can discover ways to improve patient care, comfort, and outcomes through new technologies, techniques, or approaches

SCOPE-Identifying opportunities for innovation Guest Lecture have a broad scope, covering areas such as:

- Technological Advancements: Explore how emerging technologies like 3D printing, AI, or virtual reality can be applied in dentistry to improve patient care or streamline processes.
- Patient Experience Enhancement: Focus on ways to enhance the patient experience within dental clinics through improved communication methods, appointment scheduling systems, or waiting room amenities**.**
- Preventive Dentistry Solutions: Discuss innovative approaches to preventive dental care, such as new materials for sealants, advancements in oral hygiene products, or digital tools for tracking oral health

LEARNING OUTCOMES: - The learning outcomes of an **"Innovate today Transform Tomorrow"** Guest Lecture for dental students could include

- Understanding Market Needs: Students will learn to identify gaps and unmet needs within the dental industry, enabling them to recognize opportunities for innovation.
- Creative Problem-Solving: Through interactive activities, students will develop creative thinking skills to address challenges and generate innovative solutions within the dental field.
- Entrepreneurial Mindset: Students will cultivate an entrepreneurial mindset by learning to recognize and capitalize on opportunities for innovation, fostering a spirit of initiative and adaptability.
- Research and Analysis: Students will gain proficiency in conducting market research and analyzing trends to identify emerging opportunities and potential areas for innovation within dentistry..

A Report on Guest Lecture on

"Captivating your Audience- Present like a Pro'

Jointly organized by

Dept. of Conservative Dentistry and Endodontics.
DY Patil Dental School, Pune

Date- 21st March 2022 Venue –Conference Hall, Central Library

Background-

Captivating your Audience- Present like a Pro Guest Lecture for dental students involves considering their specific needs and goals within the field. Key factors to consider include enhancing communication skills, improving patient education, and effectively conveying complex dental concepts. Additionally, Guest Lecture that incorporate interactive elements, practical exercises, and feedback sessions can provide valuable hands-on experience for students.

AIM:

The aim of the Guest Lecture on choosing impactful presentations for dental students would likely be to enhance their ability to effectively communicate important information in their field.

OBJECTIVE:-

The objective of a Guest Lecture on Captivating your Audience- Present like a Pro for dental students could be to enhance their communication skills, teaching them how to effectively convey information to patients, colleagues, and the public. This includes techniques for organizing content, using visual aids, maintaining audience engagement, and delivering information with clarity and confidence. Additionally, it could focus on the importance of empathy, professionalism, and cultural sensitivity in dental presentations..

SCOPE-

- Content Relevance: Look for Guest Lecture that specifically cater to the needs of dental students. The content should include aspects like effective communication with patients, presenting treatment plans, and conveying complex dental concepts clearly.
- Skill Development: The Guest Lecture should focus on developing practical presentation skills such as public speaking, slide design, and handling questions effectively. Look for workshops that offer hands-on practice and feedback sessions.
- Experienced Instructors: Ensure that the Guest Lecture is facilitated by experienced presenters or educators who have expertise in both dentistry and communication/presentation skills training.

LEARNING OUTCOMES: - at the end of the Guest Lecture the participants will be able to;

- Understanding the principles of effective communication in dentistry.
- Learning how to structure presentations for maximum impact and engagement.
- Gaining skills in selecting appropriate visuals and multimedia elements to support key points.

- Practicing techniques for delivering presentations confidently and professionally.

Present health-related information to the public.

A Report of One Day Workshop on

"Art of living"

Jointly organized by

Dept. of Conservative Dentistry and Endodontics
DY Patil Dental School, Pune

Date-25th November 2022 Venue –Lecture Hall no-1

Background-

Art of living workshops tailored to the needs of dental students, such as stress-relief techniques, mindfulness practice, and overall wellbeing strategies to support their demanding academic and clinical responsibilities.

AIM:-The aim of the workshop is to enhance the mental, emotional, and physical health of students

OBJECTIVE:-

1. Mindfulness Practices:
    - The workshop introduced students to mindfulness techniques such as meditation, body scanning, and mindful breathing
    - These practices aimed to help students cultivate awareness of their thoughts, emotions, and bodily sensations, thus promoting mental clarity and relaxation.
2. Stress Management Strategies:
    - Participants learned practical strategies for managing stress, including time management techniques, effective communication skills, and methods for coping with academic pressure

SCOPE-

They might provide empathy training and self care practices, which are crucial for dental professionals in building patient relationships and maintain their own mental health.

LEARNING OUTCOMES: - The Art of Living workshop received positive feedback from participants, with many expressing appreciation for the practical tools and techniques provided. Students reported feeling more equipped to manage stress and enhance their overall well-being. The workshop also fostered a sense of community and support among participants,

A Report on Guest lecture on

"Excellent- effective- empowering way of dental team"

Jointly organized by

Dept. of Conservative Dentistry and Endodontics
DY Patil Dental School, Pune

Date- 8th February, 2021 Venue –Conference Hall, Central Library

Background-

The “Excellent- effective- empowering way of dental team Guest lecture is designed to equip students with essential skills and mindsets to thrive academically, personally, and professionally. It typically covers topics such as time management, goal setting, effective study habits, stress management, communication skills, leadership development, and strategies for overcoming challenges.

AIM:-The aim of the Guest lecture is to help individuals enhance their personal qualities, skills, and abilities, as well as develop the necessary competencies to succeed in their chosen path.

OBJECTIVE:-

The objective of an " Excellent- effective- empowering way of dental team" Guest lecture is to equip students with the necessary skills, mindset, and strategies to overcome challenges, set and achieve goals, develop resilience, enhance their academic performance, and foster personal growth and development. The Guest lecture may cover topics such as time management, study skills, stress management, effective communication, goal setting, problem-solving, and self-confidence building. Ultimately, the aim is to empower students to take ownership of their education and navigate their academic journey with confidence and competence.

SCOPE-

The scope of an “Excellent- effective- empowering way of dental team" Guest lecture typically includes topics such as goal setting, time management, study skills, effective communication, self-confidence building, resilience, and strategies for overcoming challenges. It may also cover topics like stress management, mindfulness, and fostering a growth mindset.

LEARNING OUTCOMES: The learning outcomes of an "Excellent- effective- empowering way of dental team" Guest lecture may include:

1. Goal setting: Students will learn how to set realistic and achievable goals to enhance their academic and personal success.
2. Time management: Participants will develop strategies for effectively managing their time to balance academics, extracurricular activities, and personal life.
3. Self-awareness: Students will gain insight into their strengths, weaknesses, values, and interests to make informed decisions about their education and career paths.
4. Resilience: Attendees will learn coping mechanisms to overcome challenges and setbacks, fostering resilience in the face of adversity

A Report on Guest Lecture on

"Message Matters"

Jointly organized by

Dept. of Conservative Dentistry and Endodontics.
DY Patil Dental School, Pune

Date- 22ND March 2021 Venue –Conference Hall, Central Library

Background-

Creating an effective presentation involves careful planning, thoughtful design, and engaging delivery. Here are some tips to help you make a successful presentation:

AIM:-The aim of creating an effective presentation is to successfully convey your message to your audience, leaving a lasting and positive impact**.**

OBJECTIVE:-

1. Clear Communication:

- Ensure that your message is clearly articulated and easy to understand.
- Use language and visuals that resonate with your audience.

2. Engagement:

- Capture and maintain the audience's attention throughout the presentation.
- Employ engaging content, visuals, and interactive elements to keep the audience interested.

3. Information Retention:

- Structure your presentation in a way that facilitates information retention.
- Use repetition, examples, and visual aids to reinforce key points.

4. Audience Understanding:

- Tailor your presentation to the specific needs and interests of your audience.
- Demonstrate empathy and an understanding of their perspective.

SCOPE-

Effectively communicating ideas and information is a universal skill that can enhance success in various professional and personal scenarios. Mastering the art of making presentations can significantly contribute to career advancement, effective leadership, and successful communication in diverse fields.

LEARNING OUTCOMES: - at the end of the Guest Lecture the participants will be able to;

- Teach and deliver lectures.
- Present research findings at conferences.
- Create engaging educational content for audience.

- Conduct seminars or webinars on specific topics.
- Communicate medical research findings
- Present health-related information to the public.

A Report of Guest lecture on

"Cultivation leadership in dental practice"

Jointly organized by

Dept. of Conservative Dentistry and Endodontics
DY Patil Dental School, Pune

Date- 15th June, 2021 Venue –Conference Hall, Central Library

Background-

Background in Cultivation leadership in dental practice is essential for anyone in a managerial or leadership role. These skills contribute to creating a positive and productive work environment, fostering collaboration, and achieving organizational goals. Here's an overview of key aspects related to leadership skills and team building exercises

AIM:-The aim of the Guest lecture is to provide an overview of the key skills involved in leadership & team building

OBJECTIVE:-

1. Communication:

- Leaders must effectively convey ideas, instructions, and expectations.
- Active listening is crucial to understand team members' perspectives.

2. Decision-Making:

- Leaders need to make timely and well-informed decisions.
- Balancing risks and benefits and considering team input are vital

3. Problem-Solving:

- Leaders should be adept at analyzing problems and finding innovative solutions.
- Encouraging a culture of creative problem-solving within the team is important.

SCOPE-

The scope of leadership skills and team building exercises is dynamic and should be tailored to the specific needs and goals of the organization. Continuous learning, adaptability, and a focus on both individual and collective growth are crucial components within this scope.

LEARNING OUTCOMES: - at the end of the Guest lecture the participants will be able to;

These learning outcomes reflect a holistic development approach, focusing on both individual leadership skills and the dynamics of effective team collaboration. They contribute to the following:

- Enhanced Problem-Solving: Participants will apply problem-solving skills in practical scenarios through team-building exercises.
- Improved Communication: Team exercises will enhance communication skills, promoting effective information exchange and understanding between dentists in interdisciplinary cases.
- Networking: Participants will develop networking skills to build and maintain professional relationships with patients and fellow doctors.
- Decision-Making: Participants will develop skills in making well-informed and timely decisions, considering the impact on the team and organizational goals.

A Report of One Day Workshop on

"-Patient centric health care"

Jointly organized by

Dept. of Conservative Dentistry and Endodontics
DY Patil Dental School, Pune

Date- 11th February, 2020 Venue –Conference Hall, Central Library

Background-

Background -Patient centric health care- in the rapidly evolving healthcare landscape, a patient centric approach to the supply chain is becoming increasingly vital. This report examines the key components and benefits of a patient centric supply as well as strategies for implementation.

AIM:-The aim of the workshop is to provide focus on efficiency and cost effectiveness rather than patient outcome.

OBJECTIVE:-

1. Visibility and transparency:

- Implementing technologies can provide real time visibility into the movement of supply.
- Enabling healthcare providers to better anticipate and meet patient needs

2. Demand forecasting:

- Utilizing data analytics and predictive modeling can help forecast patient demand more accurately.

3. Collaboration and integration:

- Building strong partnership between health care providers and distributors is essential for optimizing the supply chain and ensuring seamless coordination of care.

SCOPE-

The scope **o**f the -Patient centric health care to benefit the healthcare provider to achieve successful goal in fulfilling the patients need and prioritize quality of treatment to build quality of life.

LEARNING OUTCOMES: - at the end of the workshop the participants will be able to learn these learning outcomes to reflect a holistic development approach, focusing on both patient and healthcare provider.

They contribute to the following benefits:

- Improved patient outcomes:: by ensuring that the right supplies are available when needed a patient centric supply.
- Enhanced patient experience : customizing supply chain processes to meet the needs and preferences of patients can improve their overall experience
- Cost saving: while initially implementing a patient centric supply may require investment in technology and infrastructure.
- Competitive advantage: healthcare organizasations that prioritize patient centricity in their supply chain operations can gain a competitive edge by differentiating themselves in the market and enhancing more patients and providers.

A Report on Guest Lecture on

"From Trepidation to Triumph"

Jointly organized by

Dept. of Conservative Dentistry and Endodontics.
DY Patil Dental School, Pune

Date- 16TH March 2020 Venue –Lecture Hall NO-1

Background-

A Guest Lecture on From Trepidation to Triumph typically covers strategies and techniques for understanding your audience's demographics, interests, knowledge level, and expectations. It may include topics such as conducting research on your audience, adapting your content and delivery style to suit their preferences, and effectively engaging different types of audiences

AIM:- The aim of a Guest Lecture on audience analysis is to equip participants with the skills and techniques necessary to understand and tailor their communication to specific audiences effectively.

OBJECTIVE:

The objective of a From Trepidation to Triumph Guest Lecture is to understand the characteristics, preferences, and needs of a target audience in order to tailor communication strategies, products, or services to effectively engage and resonate with them. This may involve identifying demographics, psychographics, communication channels, and feedback mechanisms to ensure effective communication and connection with the intended audience.

SCOPE-

- Identifying target demographics: Understanding the age, gender, location, education level, income, etc., of the audience.
- Analyzing psychographics: Exploring attitudes, beliefs, values, interests, lifestyles, and behaviours that influence audience decisions.
- Assessing communication preferences: Investigating preferred communication channels, language, tone, and messaging styles..

LEARNING OUTCOMES: - at the end of the Guest Lecture the participants will be able to;

- Understanding the importance of audience analysis in effective communication.
- Learning various techniques and methods for conducting audience analysis.
- Identifying different audience types and their characteristics.
- Recognizing how audience demographics, preferences, and needs impact communication strategies.

A Report of One Day Workshop on

"Leadership Mastery"

Jointly organized by

Dept. of Conservative Dentistry and Endodontics
DY Patil Dental School, Pune

Date- 9th June, 2020 Venue –Conference Hall, Central Library

Background-

Background in leadership Mastery and team building exercises is essential for anyone in a managerial or leadership role. These skills contribute to creating a positive and productive work environment, fostering collaboration, and achieving organizational goals. Here's an overview of key aspects related to leadership skills and team building exercises

AIM:-The aim of the workshop is to provide an overview of the key skills involved in leadership & team building

OBJECTIVE:-

1. Communication:

- Leaders must effectively convey ideas, instructions, and expectations.
- Active listening is crucial to understand team members' perspectives.

2. Decision-Making:

- Leaders need to make timely and well-informed decisions.
- Balancing risks and benefits and considering team input are vital

3. Problem-Solving:

- Leaders should be adept at analyzing problems and finding innovative solutions.
- Encouraging a culture of creative problem-solving within the team is important.

SCOPE-

The scope of leadership skills and team building exercises is dynamic and should be tailored to the specific needs and goals of the organization. Continuous learning, adaptability, and a focus on both individual and collective growth are crucial components within this scope.

LEARNING OUTCOMES: - at the end of the workshop the participants will be able to;

These learning outcomes reflect a holistic development approach, focusing on both individual leadership skills and the dynamics of effective team collaboration. They contribute to the following:

- Enhanced Problem-Solving: Participants will apply problem-solving skills in practical scenarios through team-building exercises.
- Improved Communication: Team exercises will enhance communication skills, promoting effective information exchange and understanding between dentist in interdisciplinary cases.
- Networking: Participants will develop networking skills to build and maintain professional relationships with patients and fellow doctors.
- Decision-Making: Participants will develop skills in making well-informed and timely decisions, considering the impact on the team and organizational goals.

A Report of One Day Workshop on

"Building Bridges between Patient and Doctor"

Jointly organized by

Dept. of Conservative Dentistry and Endodontics
DY Patil Dental School, Pune

Date: 19 February, 2019 Venue –Conference Hall, Central Library

Background-

Background Building Bridges between Pt and Doctor- in the rapidly evolving healthcare landscape, a patient centric approach to the supply chain is becoming increasingly vital. This report examines the key components and benefits of a patient centric supply as well as strategies for implementation.

AIM:-The aim of the workshop is to provide focus on efficiency and cost effectiveness rather than patient outcome.

OBJECTIVE:-

1. Visibility and transparency:

- Implementing technologies can provide real time visibility into the movement of supply.
- Enabling healthcare providers to better anticipate and meet patient needs

2. Demand forecasting:

- Utilizing data analytics and predictive modeling can help forecast patient demand more accurately.

3. Collaboration and integration:

- Building strong partnership between health care providers and distributors is essential for optimizing the supply chain and ensuring seamless coordination of care.

SCOPE-

The scope **o**f the Building Bridges between Patient and Doctors to benefit the healthcare provider to achieve successful goal in fulfilling the patients need and prioritize quality of treatment to build quality of life.

LEARNING OUTCOMES: - at the end of the workshop the participants will be able to learn these learning outcomes to reflect a holistic development approach, focusing on both patient and healthcare provider.

They contribute to the following benefits:

- Improved patient outcomes:: by ensuring that the right supplies are available when needed a patient centric supply.
- Enhanced patient experience : customizing supply chain processes to meet the needs and preferences of patients can improve their overall experience
- Cost saving: while initially implementing a patient centric supply may require investment in technology and infrastructure.
- Competitive advantage: healthcare organizasations that prioritize patient centricity in their supply chain operations can gain a competitive edge by differentiating themselves in the market and enhancing more patients and providers.

A Report on Guest Lecture on

"Present to Impress."

Jointly organized by

Dept. of Conservative Dentistry and Endodontics.
DY Patil Dental School, Pune

Date- 18th march2019 Venue–Conference Hall, Central Library

Background-

A Guest Lecture on Present to Impress typically covers strategies and techniques for understanding your audience's demographics, interests, knowledge level, and expectations. It may include topics such as conducting research on your audience, adapting your content and delivery style to suit their preferences, and effectively engaging different types of audiences

AIM: The aim of a Guest Lecture on audience analysis is to equip participants with the skills and techniques necessary to understand and tailor their communication to specific audiences effectively**.**

OBJECTIVE:-

The objective of an Present to Impress Guest Lecture is to understand the characteristics, preferences, and needs of a target audience in order to tailor communication strategies, products, or services to effectively engage and resonate with them. This may involve identifying demographics, psychographics, communication channels, and feedback mechanisms to ensure effective communication and connection with the intended audience.

SCOPE-

- Identifying target demographics: Understanding the age, gender, location, education level, income, etc., of the audience.
- Analyzing psychographics: Exploring attitudes, beliefs, values, interests, lifestyles, and behaviours that influence audience decisions.
- Assessing communication preferences: Investigating preferred communication channels, language, tone, and messaging styles.

.

LEARNING OUTCOMES: - at the end of the programme the participants will be able to;

- Understanding the importance of audience analysis in effective communication.
- Learning various techniques and methods for conducting audience analysis.
- Identifying different audience types and their characteristics.

Recognizing how audience demographics, preferences, and needs impact communication strategies

.

A Report of Guest lecture on

"To help and do no harm -Ethical dental practice"

Jointly organized by

Dept. of Conservative Dentistry and Endodontics
DY Patil Dental School, Pune

Date- 11th June, 2019 Venue –Conference Hall, Central Library

Background-

To help and do no harm -Ethical dental practice Guest lecture for dental students involves incorporating principles of integrity, professionalism, and ethical decision-making tailored to the unique challenges and responsibilities within the field of dentistry. Key components may include: Introduction to Ethical Leadership, Case Studies Professionalism and Integrity

AIM: - The aim of an Ethical dental practice Guest lecture for dental students could be to cultivate a strong understanding of ethical principles and practices within the context of dentistry

OBJECTIVE:-

- Cultivating awareness: Enhancing students' understanding of ethical dilemmas commonly faced in dental practice.
- Developing decision-making skills: Providing tools and frameworks to help students navigate complex ethical situations they may encounter in their careers.
- Fostering integrity: Encouraging a commitment to upholding ethical standards and professional integrity in dental practice

SCOPE-

- Ethical principles in dentistry: Discussing core ethical principles such as beneficence, non-malfeasance, autonomy, and justice as they apply to dental practice.
- Patient-centered care: Emphasizing the importance of prioritizing patient well-being, informed consent, and effective communication in dental practice.
- Professionalism and integrity: Exploring the ethical responsibilities of dentists, including honesty, transparency, and maintaining professional boundaries

LEARNING OUTCOMES:

- Understanding ethical principles: Gain a comprehensive understanding of foundational ethical principles such as autonomy, beneficence, non-malfeasance, and justice as they apply to dental practice.
- Ethical decision-making skills: Develop practical skills in ethical decision-making, including assessing ethical dilemmas commonly encountered in dental practice and identifying appropriate courses of action.

- Professional integrity: Cultivate a strong sense of professional integrity and ethical responsibility, emphasizing the importance of honesty, transparency, and accountability in dental practice.

A Report on Guest Lecture on

"Making the Right Choice."

Jointly organized by

Dept. of Conservative Dentistry and Endodontics.
DY Patil Dental School, Pune

Date-23rd September 2019 Venue –Lecture Hall NO-1,

Background-

Making the Right Choice." Guest Lecture for dental students involves considering their specific needs and goals within the field. Key factors to consider include enhancing communication skills, improving patient education, and effectively conveying complex dental concepts. Additionally, workshops that incorporate interactive elements, practical exercises, and feedback sessions can provide valuable hands-on experience for students:

AIM:

The aim of the Guest Lecture on choosing impactful presentations for dental students would likely be to enhance their ability to effectively communicate important information in their field.

OBJECTIVE:-

The objective of a Guest Lecture making the Right Choice for dental students could be to enhance their communication skills, teaching them how to effectively convey information to patients, colleagues, and the public. This includes techniques for organizing content, using visual aids, maintaining audience engagement, and delivering information with clarity and confidence. Additionally, it could focus on the importance of empathy, professionalism, and cultural sensitivity in dental presentations..

SCOPE-

- Content Relevance: Look for Guest Lecture that specifically caters to the needs of dental students. The content should include aspects like effective communication with patients, presenting treatment plans, and conveying complex dental concepts clearly.
- Skill Development: The Guest Lecture should focus on developing practical presentation skills such as public speaking, slide design, and handling questions effectively. Look for workshops that offer hands-on practice and feedback sessions.
- Experienced Instructors: Ensure that the Guest Lecture is facilitated by experienced presenters or educators who have expertise in both dentistry and communication/presentation skills training.

LEARNING OUTCOMES: - At the end of the Guest Lecture the participants will be able to;

- Understanding the principles of effective communication in dentistry.
- Learning how to structure presentations for maximum impact and engagement.
- Gaining skills in selecting appropriate visuals and multimedia elements to support key points.
- Practicing techniques for delivering presentations confidently and professionally.

Present health-related information to the public.

- **Schedule**

Time	**Program Particulars**	
9.00 am	Registration	
9.30 -10.00 am	Inauguration	Dr.Anand Shigli, Dean, DY Patil Dental School
10.00 -11.00 am	Introduction to Making the Right Choice Presentation	Dr. Vinit Vinay (BDS, MDS Community Dentistry)
11.00-11.05 am	**Tea Break**	
11.05-12.00 noon	How to structure your presentation.	Dr. Vinit Vinay (BDS, MDS Community Dentistry)

A report on Guest Lecture on "Making the Right Choice."

1. **Introduction:** The one-day Guest Lecture on "Making the Right Choice" aimed to enhance the paper presentation skills of dental professionals by providing a comprehensive understanding of impactful presentation. The workshop covered various aspects, from guidelines on creating an effective presentation to successfully convey message to audience, leaving a lasting and positive impact.

2. Day 1:

9:30 - 10:00 am - Inauguration:

Dr. Anand Shigli, Dean of DY Patil Dental School, inaugurated the workshop, emphasizing the importance of selecting right platform.

10:00 - 11:00 am - Introduction to Making the Right Choice

Dr.Vinit vinay provided an insightful introduction to the foundations and principles of Impactful presentation.

11:05 am - 12:00 noon - How to structure your presentation.

Dr.Vinit Vinay Discussed crafting a compelling narrative or a storyline in presentation.

12:00 - 1:00 pm - How to engage audience.

Dr vinit vinay discussed techniques about how to capture attention in audience.

1:00 - 1:30 pm - Valedictory and Certificate distribution

Dr.Vinit vinay discussed importance of voice modulation and projection..

4. Conclusion: The Guest Lecture on "Making the Right Choice successfully equipped participants with the skills and knowledge needed to conduct high-quality presentation in their dental research endeavors. The diverse sessions led by experienced facilitators provided valuable insights and practical applications in the dental profession.

5. Acknowledgments: A special thanks to Dr. Anand Shigli, Dr. Vinit Vinay, for their contributions to the success of the Guest Lecture. Thanks also to all participants for their active engagement and contributions

A Report of One Day Workshop on

"Boost Yours Language Skill'

Jointly organized by

Dept. of Conservative Dentistry and Endodontics.
DY Patil Dental School, Pune

Date- 08/09/2023 Venue –Lecture Hall No-1

Background-

At times, dental students have language skills but, they may not be able to communicate with a patient in that language. Bridging this discrepancy will ensure that the health care needs of multicultural population are better met. The dental professionals are encouraged to speak in English, Hindi and local language which is Marathi.

AIM:-The aim of the workshop is to implement Boost Yours Language Skill in dental professionals.

OBJECTIVE:-

1. Patient Communication:

Improve the ability to explain dental procedures, treatment plans, and post-operative care in a clear and understandable manner to patients.

2. Cultural Competence:
Enhance the ability to articulate and document patient information when referring or consulting with specialists, ensuring accurate and comprehensive communication.

3. Conflict Resolution:
Enhance the ability to address and resolve patient concerns or conflicts through effective communication, maintaining a positive and trusting dentist-patient relationship.

SCOPE-

A dentist's communication skills are an important ingredient in a successful practice because they create trust. And trust is what makes patients keep coming back. The trust of the patient can be gained through their own vernacular language. Thus, the dentist should be familiar with the language of that particular place where they are practicing.

LEARNING OUTCOMES: - at the end of the workshop the participants will be able to;

- Clear and precise language reduces the risk of miscommunication or misunderstanding, minimizing the potential for errors in patient care.

- Accurate communication in clinical notes and records ensures that critical information is conveyed accurately within the healthcare team.

- Strong language skills contribute to effective conflict resolution, both with patients and colleagues.

- Effective communication among dental professionals, as well as with other healthcare providers, leads to better collaboration and coordinated patient care.

- Dentists who can present cases in a clear and persuasive manner are more likely to see higher case acceptance rates

A Report of One Day Workshop on

"Polishing Your Language Ability."

Jointly organized by

Dept. of Conservative Dentistry and Endodontics.
DY Patil Dental School, Pune

Date- 04/08/22 Venue –Lecture Hall No-1

Background-

At occasions, students studying dentistry may possess linguistic abilities; however, they might encounter difficulties in effectively communicating with patients in a language they're proficient in. Addressing this incongruity is crucial for enhancing the provision of healthcare services to diverse communities. It is advocated for dental practitioners to communicate in English, Hindi, and the indigenous Marathi language to accommodate the linguistic diversity among patients.

AIM:-The aim of the workshop is to implement Polishing Your Language Ability in dental professionals.

OBJECTIVE:-

1. Patient Communication:

Improve the ability to explain dental procedures, treatment plans, and post-operative care in a clear and understandable manner to patients.

2. Cultural Competence:
Enhance the ability to articulate and document patient information when referring or consulting with specialists, ensuring accurate and comprehensive communication.

3. Conflict Resolution:
Enhance the ability to address and resolve patient concerns or conflicts through effective communication, maintaining a positive and trusting dentist-patient relationship.

SCOPE-

Effective communication skills are vital for dentists as they play a pivotal role in establishing trust, a cornerstone of a thriving practice. Patient retention hinges on trust, making it indispensable. Building trust with patients is facilitated by communicating in their native language. Therefore, it is imperative for dentists to be acquainted with the vernacular of the region where they practice to foster effective communication and trust.

LEARNING OUTCOMES: - at the end of the workshop the participants will be able to;

- Clear and precise language reduces the risk of miscommunication or misunderstanding, minimizing the potential for errors in patient care.

- Accurate communication in clinical notes and records ensures that critical information is conveyed accurately within the healthcare team.

- Strong language skills contribute to effective conflict resolution, both with patients and colleagues.

- Effective communication among dental professionals, as well as with other healthcare providers, leads to better collaboration and coordinated patient care.

- Dentists who can present cases in a clear and persuasive manner are more likely to see higher case acceptance rates.

A Report of One Day Workshop on

"Enhancing Linguistic competition"

Jointly organized by

Dept. of Conservative Dentistry and Endodontics.
DY Patil Dental School, Pune

Date- 13/02/2020 Venue –Conference Hall, Central Library

Background-

From time to time, dental students exhibit language competency, but they may face difficulties in effectively communicating with patients in a common language. Rectifying this mismatch is crucial to improve healthcare delivery for varied communities. It is recommended that dental professionals communicate in English, Hindi, and the local Marathi language to accommodate the linguistic diversity of patients..

AIM:-The aim of the workshop is to implement Enhancing Linguistic competition in dental professionals.

OBJECTIVE:-

1. Patient Communication:

Improve the ability to explain dental procedures, treatment plans, and post-operative care in a clear and understandable manner to patients.

2. Cultural Competence:
Enhance the ability to articulate and document patient information when referring or consulting with specialists, ensuring accurate and comprehensive communication.

3. Conflict Resolution:
Enhance the ability to address and resolve patient concerns or conflicts through effective communication, maintaining a positive and trusting dentist-patient relationship.

SCOPE-

Strong communication abilities are crucial for dentists to succeed in their professional endeavors as they cultivate trust, a vital element in maintaining patient loyalty. Trust is nurtured through adept communication in the patient's mother tongue. Hence, it is imperative for dentists to master the indigenous dialect of the region in which they operate..

LEARNING OUTCOMES: - at the end of the workshop the participants will be able to;

- Clear and precise language reduces the risk of miscommunication or misunderstanding, minimizing the potential for errors in patient care.
- Accurate communication in clinical notes and records ensures that critical information is conveyed accurately within the healthcare team.
- Strong language skills contribute to effective conflict resolution, both with patients and colleagues.

- Effective communication among dental professionals, as well as with other healthcare providers, leads to better collaboration and coordinated patient care.
- Dentists who can present cases in a clear and persuasive manner are more likely to see higher case acceptance rates.

- **Workshop Schedule**

A Report of One Day Workshop on

"Learning Local Language."

Jointly organized by

Dept. of Conservative Dentistry and Endodontics.
DY Patil Dental School, Pune

Date- 08/08/2019 Venue –Lecture Hall No-1,

Background-

Occasionally, dental students possess language proficiency, yet they may face challenges in effectively communicating with patients in their language. Addressing this disparity is crucial for adequately meeting the healthcare requirements of a multicultural populace. It is recommended that dental professionals communicate in English, Hindi, and the regional language, Marathi, to better serve the linguistic diversity among patients.

AIM:-The aim of the workshop is to implement Learning Local Language in dental professionals.

OBJECTIVE:-

1. Patient Communication:

Improve the ability to explain dental procedures, treatment plans, and post-operative care in a clear and understandable manner to patients.

2. Cultural Competence:
Enhance the ability to articulate and document patient information when referring or consulting with specialists, ensuring accurate and comprehensive communication.

3. Conflict Resolution:
Enhance the ability to address and resolve patient concerns or conflicts through effective communication, maintaining a positive and trusting dentist-patient relationship.

SCOPE-

Communication proficiency is a key factor in a dentist's practice success, as it fosters trust, which in turn ensures patient loyalty. Establishing trust with patients is essential, and one effective way to achieve this is by conversing in their native language. Therefore, it is imperative for dentists to be well-versed in the local language of their practice location to facilitate effective communication and build trust with their patients.

LEARNING OUTCOMES: - at the end of the workshop the participants will be able to;

- Clear and precise language reduces the risk of miscommunication or misunderstanding, minimizing the potential for errors in patient care.

- Accurate communication in clinical notes and records ensures that critical information is conveyed accurately within the healthcare team.

- Strong language skills contribute to effective conflict resolution, both with patients and colleagues.

- Effective communication among dental professionals, as well as with other healthcare providers, leads to better collaboration and coordinated patient care.

A Report of Guest Lecture on

"'Advancing communication with cutting edge technology'"

Jointly organized by

DY Patil Dental School, Pune

Date: 21st October 2023 Venue – Lecture Hall 1, DYPDS

Background-

Advancing communication with cutting-edge technology involves leveraging the latest innovations to enhance how we connect and exchange information. This includes advancements in fields like telecommunications, networking, artificial intelligence, and user interfaces.

AIM: The aim of advancing communication with cutting-edge technology is to improve the efficiency, speed, reliability, and accessibility of communication across various platforms and mediums

OBJECTIVE:-

The objective of a Guest Lecture on 'Advancing communication with cutting edge technology ‘in dentistry could be to enhance connectivity and improves efficiency by leveraging automation and other advance technologies

SCOPE-

The scope of advancing communication with cutting-edge technology is dynamic and continues to evolve as new technologies emerge and societal needs change. Ultimately, the goal is to leverage innovation to enhance the effectiveness, efficiency, and inclusivity of communication in an increasingly interconnected world.

LEARNING OUTCOMES: - The learning outcomes of a 'Advancing communication with cutting edge technology could include:

- Understanding the technological trends
- Knowledge of communication systems.
- Critical thinking skills

A Report of Guest Lecture on

“Effective communication' A cornerstone of modern dentistry”

Jointly organized by

DY Patil Dental School, Pune

Date: 2nd February 2023 Venue – Lecture Hall 1, DYPDS

Background-

Traditionally dentistry focused primarily on clinical practice and technical proficiency. Overtime the scope has expanded to include patient centered care, were communication plays a pivotal role.

AIM: The aim of communication as a cornerstone of modern dentistry is multifaceted, encompassing several key such as patient centered care, treatment understanding and informed consent

OBJECTIVE: - Objectives includes

1. Building trust and rapport
2. Treatment co-ordination and compliance.
3. Addressing patient education and prevention

SCOPE-

The scope of effective communication as a cornerstone of modern dentistry is broad and encompasses various aspects of patient care, professional collaboration, and practice management.

LEARNING OUTCOMES: - at the end of the Guest Lecture the participants will be able to;

- Understanding the importance of effective communication in patient care and satisfaction.
- Developing active listening skills to better understand patient concerns and needs.
- Learning techniques for clear and concise communication with patients, colleagues, and other healthcare professionals.
- Improving empathy and rapport-building abilities to establish trust and rapport with patients.

A report on Guest Lecture on "Effective communication' A cornerstone of modern dentistry"

1. Introduction: Effective communication is a cornerstone of modern dentistry, playing a vital role in ensuring high-quality patient care and fostering strong patient-practitioner relationships. In today's dental practice, clear and empathetic communication not only helps in accurately diagnosing and treating dental issues but also in alleviating patient anxiety, enhancing compliance with treatment plans, and improving overall patient satisfaction.

2. Schedule:

9:30 - 10:00 am - Inauguration:

Dr. Anand Shigli, Dean of DY Patil Dental School, inaugurated the programme, emphasizing the importance of communication.

10:00 - 11:00 am - Introduction to Effective communication' A cornerstone of modern dentistry

Dr. Anuradha Provided an insightful introduction to the topic.

11:05 am - 12:00 noon Fundamentals of effective communication

Dr. Anuradha Discussed the Fundamentals of effective communication

12:00 - 1:00 pm Utilization of communication technology

Dr. Anuradha highlighted the importance of utilizing technology for better communication.

1.00-1.30 pm - Valedictory and Certificate distribution

4. Conclusion: As we embark on this journey to explore communication as a cornerstone of modern dentistry, let us recognize its profound impact on patient care, professional relationships, and practice success. By honing our communication skills and embracing the principles of patient-centered care, we can elevate the standard of care we provide and fulfill our mission of promoting oral health and enhancing the well-being of our patients

5. Acknowledgments: A special thanks to Dr. Anand Shigli, Dr. Anuradha for their contributions to the success of the Guest Lecture. Thanks also to all participants for their active engagement and contributions.

A Report of Guest Lecture on

"Digital solution for superior Communication"

Jointly organized by

DY Patil Dental School, Pune

Date: 24th October 2022 Venue – Lecture Hall 1, DYPDS

Background-

The adoption of digital technologies in dental practice has paved the way for superior communication channels that enhance patient-provider interactions, streamline administrative tasks, and improve overall practice efficiency.

AIM: The aim of the topic "Digital Solutions for Superior Communication" is to explore and highlight the transformative role of digital technologies in enhancing communication within dental care settings.

OBJECTIVE:-

The objective of a Lecture on Digital solution for superior Communication could be Understanding Digital Solutions, this also benefits digital solutions for communication in dental care,.

SCOPE-

The scope of the topic "Digital Solutions for Superior Communication" encompasses a comprehensive exploration of various digital technologies and platforms that enhance communication within dental care settings

LEARNING OUTCOMES: - The learning outcomes of a workshop on the use of technology for better communication skills in dentistry could include:

- Overview of Digital Solution
- Benefits of Digital Solutions
- Patient-Provider Interactions
- Patient-Cantered Approach

Schedule

A Report of Guest Lecture

"Role of technology in improving communication efficiency"

Jointly organized by

DY Patil Dental School, Pune

Date: 29th October 2021 Venue – Lecture Hall 1, DYPDS

Background-

Sharing best practices for effective communication strategies and showcasing real-world case studies of organizations that have successfully implemented innovative communication technologies. Discussing how technology can be leveraged to improve communication accessibility for individuals with disabilities..

AIM: The aim of a Guest lecture on the Role of technology in improving communication efficiency could be to empower dental professionals with tools and techniques to enhance patient communication, streamline processes, and improve overall patient experience.

OBJECTIVE:-

The objective of a Lecture on Role of technology in improving communication efficiency could be to empower dental professionals with tools and techniques to effectively communicate with patients, colleagues, and other stakeholders using modern technology. This may include leveraging digital platforms, multimedia resources, telecommunication tools, and patient education software to enhance patient understanding.

SCOPE-

A Lecture on Role of technology in improving communication efficiency could cover topics such as utilizing digital communication platforms for patient education, improving interpersonal communication through telemedicine tools, incorporating multimedia presentations for patient consultations, and leveraging social media for professional networking and patient engagement.

LEARNING OUTCOMES: - The learning outcomes of a Lecture on Role of technology in improving communication efficiency includes-

- Understand the integration of digital tools in dental practice
- Benefits of electronic health records
- Explore the advantages of patient management systems

A Report on Guest Lecture

"Communication- The key to successful Dental outcome"

Jointly organized by

DY Patil Dental School, Pune

Date: 26th February 2021 Venue – Lecture Hall 1, DYPDS

Background-

Effective communication in dental practice is critical factor in achieving successful dental outcomes. Clear communication helps patients understand their diagnosis, treatment options, and post-treatment care, leading to better treatment outcomes.

AIM:- The aim of this Guest lecture is to explore and highlight the pivotal role of effective communication

OBJECTIVE:-

1. Enhancing dentist-patient communication: Teaching dentists effective communication techniques to build rapport, establish trust, and ensure clear understanding between dentist and patient.
2. Improving treatment acceptance: Educating dentists on how to communicate treatment options, benefits, and risks effectively to increase patient acceptance and compliance.
3. Addressing patient anxiety: Providing strategies to help dentists communicate with anxious patients in a reassuring and calming manner, fostering a comfortable dental experience.

SCOPE-

A Lecture on Communication- The key to successful Dental outcome - covers effective patient communication, conveying complex dental information in understandable terms, building rapport with patients, handling difficult conversations (e.g., treatment plans, finances), and communicating effectively within dental teams for coordinated patient care..

LEARNING OUTCOMES: - at the end of the Lecture the participants will be able to;

- Understanding the importance of effective communication for successful outcome
- Developing active listening skills to better understand patient concerns and needs.
- Learning techniques for clear and concise communication with patients, colleagues, and other healthcare professionals.

Schedule

Time	Program Particulars	
9.30 -10.00 am	Inauguration	Dr.Anand Shigli, Dean, DY Patil Dental School
10.00 -11.00 am	Introduction to Communication- The key to successful Dental outcome	Dr. Sulekha Gosavi (BDS, MDS Prosthodontics)
11.00-11.05 am	**Tea Break**	
11.05-12.00 noon	Patients'–Dentist communication	Dr. Sulekha Gosavi (BDS, MDS Prosthodontics)
12.00 1.00 pm	Importance of long term dental health	Dr. Sulekha Gosavi (BDS, MDS Prosthodontics)
1.00-1.30 pm	Validation and certificate distribution	Dr. Anagha

A Report of Guest Lecture

“'Tech Savvy Communication' Revolutionizing Interaction”

Jointly organized by

DY Patil Dental School, Pune

Date: 17th October 2020 Venue – Lecture Hall 1, DYPDS

Background-

Sharing best practices for effective communication strategies and showcasing real-world case studies of organizations that have successfully implemented innovative communication technologies. Discussing how technology can be leveraged to improve communication accessibility for individuals with disabilities..

AIM: The aim of Guest Lecture on Tech Savvy Communication- Revolutionizing Interaction could be to empower dental professionals with tools and techniques to enhance patient communication, streamline processes, and improve overall patient experience.

OBJECTIVE:-

The objective of a Lecture on the use of technology for better communication skills in dentistry could be to empower dental professionals with tools and techniques to effectively communicate with patients, colleagues, and other stakeholders using modern technology. This may include leveraging digital platforms, multimedia resources, telecommunication tools, and patient education software to enhance patient understanding.

SCOPE-

A Lecture on the use of technology for better communication skills in dentistry could cover topics such as utilizing digital communication platforms for patient education, improving interpersonal communication through telemedicine tools, incorporating multimedia presentations for patient consultations, and leveraging social media for professional networking and patient engagement.

LEARNING OUTCOMES: - The learning outcomes of a Lecture on the use of technology for better communication skills in dentistry could include:

- Understanding the various technological tools available for communication in dentistry, such as digital imaging, tele-dentistry platforms, and communication software.
- Learning how to effectively utilize technology to enhance patient communication and education about dental procedures and treatment options.
- Improving skills in using digital communication methods to interact with patients, colleagues, and other healthcare professionals.

A Report on Guest Lecture on

"The vital role of communication skills in dentistry"

Jointly organized by

DY Patil Dental School, Pune

Date: 22nd February 2019 Venue – Lecture Hall 1, DYPDS

Background-

Effective communication fosters trust and rapport with patients, leading to better treatment compliance and overall patient satisfaction. Clear communication helps patients understand their diagnosis, treatment options, and post-treatment care, leading to better treatment outcomes.

AIM:- The aim of this Guest Lecture is to build trust, educate patients and reduce their anxiety.

OBJECTIVE:-

1. Enhancing dentist-patient communication: Teaching dentists effective communication techniques to build rapport, establish trust, and ensure clear understanding between dentist and patient.
2. Improving treatment acceptance: Educating dentists on how to communicate treatment options, benefits, and risks effectively to increase patient acceptance and compliance.
3. Addressing patient anxiety: Providing strategies to help dentists communicate with anxious patients in a reassuring and calming manner, fostering a comfortable dental experience.

SCOPE-

A Guest Lecture on the vital role of communication skills in dentistry covers topics such as effective patient communication, conveying complex dental information in understandable terms, building rapport with patients, handling difficult conversations (e.g., treatment plans, finances), and communicating effectively within dental teams for coordinated patient care..

LEARNING OUTCOMES: - at the end of the Guest Lecture the participants will be able to;

- Understanding the importance of effective communication in patient care and satisfaction.
- Developing active listening skills to better understand patient concerns and needs.

- Learning techniques for clear and concise communication with patients, colleagues, and other healthcare professionals.
- Improving empathy and rapport-building abilities to establish trust and rapport with patients.

Schedule

Time	**Program Particulars**	
9.30 -10.00 am	Inauguration	Dr.Anand Shigli, Dean, DY Patil Dental School

A Report on Guest Lecture on

"Use of technology for better communication in dentistry"

Jointly organized by

DY Patil Dental School, Pune

Date: 29th October 2019 Venue – Lecture Hall 1, DYPDS

Background-

Sharing best practices for effective communication strategies and showcasing real-world case studies of organizations that have successfully implemented innovative communication technologies. Discussing how technology can be leveraged to improve communication accessibility for individuals with disabilities..

AIM: The aim of a Lecture on the use of technology for better communication skills in dentistry could be to empower dental professionals with tools and techniques to enhance patient communication, streamline processes, and improve overall patient experience.

OBJECTIVE:-

The objective of a Lecture on the use of technology for better communication skills in dentistry could be to empower dental professionals with tools and techniques to effectively communicate with patients, colleagues, and other stakeholders using modern technology. This may include leveraging digital platforms, multimedia resources, telecommunication tools, and patient education software to enhance patient understanding.

SCOPE-

A Lecture on the use of technology for better communication skills in dentistry could cover topics such as utilizing digital communication platforms for patient education, improving interpersonal communication through telemedicine tools, incorporating multimedia presentations for patient consultations, and leveraging social media for professional networking and patient engagement.

LEARNING OUTCOMES: - The learning outcomes of a Lecture on the use of technology for better communication skills in dentistry could include:

- Understanding the various technological tools available for communication in dentistry, such as digital imaging, tele-dentistry platforms, and communication software.
- Learning how to effectively utilize technology to enhance patient communication and education about dental procedures and treatment options.
- Improving skills in using digital communication methods to interact with patients, colleagues, and other healthcare professionals

.

"Yoga and Wellness"

Jointly organized by

Dept. of Conservative Dentistry and Endodontics
DY Patil Dental School, Pune

Date-07/01/2023 to 15/04/2023 Venue –Lecture Hall No-1

Background-

Yoga sessions in a dental college can provide a unique and holistic approach to wellness for students, faculty, and staff. Yoga is a form of meditation that aims to achieve mental, emotional, and physical balance through self-realization and inner transformation.

AIM: The aim of a Yoga and wellness session is to promote holistic well-being by integrating physical, mental, and emotional health through yoga practices and wellness activities

OBJECTIVE: The objective of yoga sessions is to cultivate emotional intelligence, self-awareness, and empathy through mindfulness practices, develop skills to regulate emotions, manage interpersonal relationships, and handle challenging situations with resilience

SCOPE-

The scope of a Yoga and wellness session is comprehensive, addressing the physical, mental, emotional, and spiritual dimensions of health and well-being to promote a balanced and fulfilling life.

LEARNING OUTCOMES: - The learning outcomes of a Yoga and wellness session encompass a range of benefits that participants achieved.

1. Improved Physical Health: Increased flexibility, strength, and stamina through yoga asanas and physical exercises.

2. Mind-Body Connection: Awareness of the mind-body connection and its impact on health and well-being.

3. Effective Stress Management: Skills and strategies to manage stressors and reduce stress-related symptoms**.**

A report on workshop on "Yoga and Wellness"

1. **Introduction:** The workshop on "Yoga & Wellness " was designed to introduce the participants to the profound wisdom and practices of yoga, mindfulness, and holistic wellness, offering practical tools and insights to enhance overall quality of life. This workshop was provided to individuals to fostering a supportive and inclusive learning environment.
2. **Conclusion:** The workshop was conducted for 15 sessions in year and the Sahaj Yoga Foundation guided the participants with different sessions with various objectives to inculcate positive attitude amongst the participants. The conclusion of the Yoga and Wellness workshop celebrates the journey of self-discovery, mindfulness, and holistic well-being achieved by participants, empowering them with practical tools and insights to lead happier, healthier lives through the integration of yoga, mindfulness, and self-care practices into their daily routines.
3. **Acknowledgments:** A special thanks to Dr. Anand Shigli, and Sahaj Yoga Foundation for their contributions to the success of the workshop. Thanks also to all participants for their active engagement and contributions

"Yoga and Wellness"

Jointly organized by

Dept. of Conservative Dentistry and Endodontics
DY Patil Dental School, Pune

Date-01/01/2022 to 16/04/2022 Venue –Lecture Hall No-1

Background-

Yoga sessions in a dental college can provide a unique and holistic approach to wellness for students, faculty, and staff. Yoga is a form of meditation that aims to achieve mental, emotional, and physical balance through self-realization and inner transformation.

AIM: The aim of a Yoga and wellness session is to promote holistic well-being by integrating physical, mental, and emotional health through yoga practices and wellness activities

OBJECTIVE: The objective of yoga sessions is to cultivate emotional intelligence, self-awareness, and empathy through mindfulness practices, develop skills to regulate emotions, manage interpersonal relationships, and handle challenging situations with resilience

SCOPE-

The scope of a Yoga and wellness session is comprehensive, addressing the physical, mental, emotional, and spiritual dimensions of health and well-being to promote a balanced and fulfilling life.

LEARNING OUTCOMES: - The learning outcomes of a Yoga and wellness session encompass a range of benefits that participants achieved.

1. Improved Physical Health: Increased flexibility, strength, and stamina through yoga asanas and physical exercises.

2. Mind-Body Connection: Awareness of the mind-body connection and its impact on health and well-being.

3. Effective Stress Management: Skills and strategies to manage stressors and reduce stress-related symptoms.

Sr no.	Date	Day	Session	Topic

A report on workshop on "Yoga and Wellness"

1. **Introduction:** The workshop on "Yoga & Wellness " was designed to introduce the participants to the profound wisdom and practices of yoga, mindfulness, and holistic wellness, offering practical tools and insights to enhance overall quality of life. This workshop was provided to individuals to fostering a supportive and inclusive learning environment.
2. **Conclusion:** The workshop was conducted for 15 sessions in year and the Sahaj Yoga Foundation guided the participants with different sessions with various objectives to inculcate positive attitude amongst the participants. The conclusion of the Yoga and Wellness workshop celebrates the journey of self-discovery, mindfulness, and holistic well-being achieved by participants, empowering them with practical tools and insights to lead happier, healthier lives through the integration of yoga, mindfulness, and self-care practices into their daily routines.
3. **Acknowledgments:** A special thanks to Dr. Anand Shigli, and Sahaj Yoga Foundation for their contributions to the success of the workshop. Thanks also to all participants for their active engagement and contributions

A Report of Workshop on

"Yoga and Wellness"

Jointly organized by

Dept. of Conservative Dentistry and Endodontics
DY Patil Dental School, Pune

Date-05/01/2019 to 20/04/2019 Venue –Lecture Hall No-1

Background-

Yoga sessions in a dental college can provide a unique and holistic approach to wellness for students, faculty, and staff. Yoga is a form of meditation that aims to achieve mental, emotional, and physical balance through self-realization and inner transformation.

AIM: The aim of a Yoga and wellness session is to promote holistic well-being by integrating physical, mental, and emotional health through yoga practices and wellness activities

OBJECTIVE: The objective of yoga sessions is to cultivate emotional intelligence, self-awareness, and empathy through mindfulness practices, develop skills to regulate emotions, manage interpersonal relationships, and handle challenging situations with resilience

SCOPE-

- The scope of a Yoga and wellness session is comprehensive, addressing the physical, mental, emotional, and spiritual dimensions of health and well-being to promote a balanced and fulfilling life.

LEARNING OUTCOMES: - The learning outcomes of a Yoga and wellness session encompass a range of benefits that participants achieved

.1. Improved Physical Health: Increased flexibility, strength, and stamina through yoga asanas and physical exercises.

2. Mind-Body Connection: Awareness of the mind-body connection and its impact on health and well-being.

3. Effective Stress Management: Skills and strategies to manage stressors and reduce stress-related symptoms

Work schedule:

Sr no.	Date	Day	Session	Topic
1	05/01/2019	Saturday	Session 1	Introduction of Yoga , benefits of meditation, Self realization
2	12/01/2019	Saturday	Session 2	Left & Right balancing Subtle system ,Yoga balancing
3	19/01/2019	Saturday	Session 3	Clearance technique & Pelvic plexus Info , Foot soaking method
4	02/02/2019	Saturday	Session 4	Liver Diet & Treatment ,Aortic plexus info , Ice pack method
5	09/02/2019	Saturday	Session 5	Solar plexus, 9 step meditation
6	16/02/2019	Saturday	Session 6	Cardiac plexus, 5 step meditation
7	23/02/2019	Saturday	Session 7	Cervical plexus, Meditationon cervival plexus
8	02/03/2019	Saturday	Session 8	Optic chiasma, meditation on optic chiasma
9	09/03/2019	Saturday	Session 9	Limbic area info, meditation on limbs
10	16/03/2019	Saturday	Session 10	Health & Yoga , Effortless meditation
11	23/03/2019	Saturday	Session 11	Emotional Intelligence, Deep meditation L1
12	30/03/2019	Saturday	Session 12	Curing diseases, Deep meditation L2
13	06/04/2019	Saturday	Session 13	Immune system improvement, Deep meditation L3
14	13/04/2019	Saturday	Session 14	Overall wellness, Deep meditation L4
15	20/04/2019	Saturday	Session 15	Music Therapy , Meditation on music

A report on workshop on "Yoga and Wellness"

1. **Introduction:** The workshop on "Yoga & Wellness " was designed to introduce the participants to the profound wisdom and practices of yoga, mindfulness, and holistic wellness, offering practical tools and insights to enhance overall quality of life. This workshop was provided to individuals to fostering a supportive and inclusive learning environment.
2. **Conclusion:** The workshop was conducted for 15 sessions in year and the Sahaj Yoga Foundation guided the participants with different sessions with various objectives to inculcate positive attitude amongst the participants. The conclusion of the Yoga and Wellness workshop celebrates the journey of self-discovery, mindfulness, and holistic well-being achieved by participants, empowering them with practical tools and insights to lead happier, healthier lives through the integration of yoga, mindfulness, and self-care practices into their daily routines.
3. **Acknowledgments:** A special thanks to Dr. Anand Shigli, and Sahaj Yoga Foundation for their contributions to the success of the workshop. Thanks also to all participants for their active engagement and contributions

A Report of One Day Workshop on

"Research Methodology, MODULE - 1"

Jointly organized by

DY Patil Dental School, Pune

Date: November 6th 2023 Venue – Sinhagad Dental College Pune,

Background-

Research methods provide an opportunity for systematic, in-depth evaluation of a question that may not be easily answered through quantitative methods. Research allows investigators to develop a deeper understanding of a topic using methodologies such as focus groups, in-depth interviews and direct observation to investigate stakeholders' attitudes, beliefs and performances- the how & why of decision making. For the ardent researchers keen to enhance research impact, here is an opportunity to enhance Research Skills through this workshop. The workshop will provide a detailed overview, understanding and application of the research methods, tools and instruments for this type of research. And it will also help to gain an understanding of reasons, opinions, and motivations in research.

AIM:-The aim of the workshop is to provide an overview of the key skills involved in conducting high quality research.

OBJECTIVE:-

1. To provide a complete, detailed information about the research methodology.

2. To understand the data collection tools.

3. To study the data collection methods.

SCOPE-

Throughout the workshop, participants will be able to understand the insider's perspective in the context of the given situation. And the participants will be able to apply their knowledge and skills with their capabilities of applying the qualitative research methodology.

LEARNING OUTCOMES: - at the end of the workshop the participants will be able to;

1. Apply their knowledge and skills in their own research.

2. Gain the knowledge of applying the study design and methodology.

3. Analyze process including method, techniques and evaluation.

Workshop Schedule

Sr No.	Time	Topic	Speaker
1.	12:30 pm	Selection of Research Topic	**Dr. Vinit Vinay**
2.	01:00 pm	Literature Search	**Dr. Kadambari**
3.	01:30 pm	How to write a research title.	**Dr. Vinit Vinay**
Tea-Break			
4.	02:30pm	How to write and present research protocol	**Dr.Vinit Vinay**
5.	03:00pm	Sampling & Data Collection	**Dr. Kadambari**

ORGANISING COMMITTEE

Chief Patron: Dr Sameer Patil, Dean, Sinhagad Dental College

Patrons: Dr. Srinidhi

Members: Dr Vinayak Nehwade

Dr Deepali Shah

The workshop, Research Methodology, MODULE - 1," held on November 6, 2023, at Sinhagad Dental College in Pune, aimed to provide interns with a robust understanding of the fundamental aspects of research methodology. Dr. Shrinidhi S.R set the stage with an insightful introduction and orientation, creating an atmosphere of curiosity and eagerness among the participants.

Dr. Vinit Vinay's session on "Selection of Research Topic" served as a foundational pillar for the interns. His expertise guided the participants through the intricate process of identifying research areas relevant to dentistry. Stressing the importance of aligning personal interests with current trends, he instilled in the interns the significance of selecting a research topic that not only resonates with them but also contributes meaningfully to the field.

The subsequent lecture, "Literature Search" by Dr. Kadambari, provided interns with essential skills in navigating the vast landscape of existing research. Her presentation highlighted effective strategies for database utilization, critical evaluation of literature, and synthesizing information. This session equipped interns with the tools to conduct a comprehensive literature review, a crucial step in shaping the direction and scope of their research projects.

Dr. Vinit Vinay took the stage to illuminate the interns on the art of crafting a compelling research title. His session, "How to Write a Research Title," emphasized the importance of a concise yet impactful title. She shared valuable insights into capturing the essence of a study through a well-crafted title, a crucial element in attracting attention and conveying the purpose of the research.

The practical aspects of translating research ideas into structured protocols were addressed by Dr. Vinit Vinay in his session, "How to Write and Present Research Protocol." Interns gained valuable insights into developing a robust research protocol, covering components such as the research question, study design, ethical considerations, and data analysis plans. Her expertise provided interns with a roadmap for effectively planning and executing their research projects.

The final segment of the workshop, "Sampling & Data Collection" by Dr. Kadambari, focused on the critical aspects of study design. His session provided interns with knowledge on selecting appropriate sample sizes, choosing sampling methods, and ensuring the reliability of data collection. This session equipped interns with the tools needed to design studies that produce meaningful and generalizable results.

The workshop fostered an interactive learning environment through Q&A sessions, case studies, and practical exercises. The diverse range of topics covered, coupled with the varied backgrounds of the speakers, ensured that the workshop catered to the diverse interests and expertise levels of the interns.

In conclusion, "Research methodology workshop,"organized by , Sinhagad Dental College, Pune, under the guidance of Dr.Sameer Patil, Dean. Sinhagad Dental College, Pune, provided PGs with a comprehensive understanding of research methodology. The combination of theoretical insights and practical guidance from the speakers laid a strong foundation for the interns, empowering them to embark on successful and impactful research journeys in the field of dentistry.

A Report of One Day Workshop on

“Genesis: Understanding Research Methodology, MODULE - 1”

Jointly organized by

DY Patil Dental School, Pune

Date: November 16th 2021 Venue – Lecture Hall 1, DYPDS

Background-

Research methods provide an opportunity for systematic, in-depth evaluation of a question that may not be easily answered through quantitative methods. Research allows investigators to develop a deeper understanding of a topic using methodologies such as focus groups, in-depth interviews and direct observation to investigate stakeholders' attitudes, beliefs and performances- the how & why of decision making. For the ardent researchers keen to enhance research impact, here is an opportunity to enhance Research Skills through this workshop. The workshop will provide a detailed overview, understanding and application of the research methods, tools and instruments for this type of research. And it will also help to gain an understanding of reasons, opinions, and motivations in research.

AIM:-The aim of the workshop is to provide an overview of the key skills involved in conducting high quality research.

OBJECTIVE:-

1. To provide a complete, detailed information about the research methodology.

2. To understand the data collection tools.

3. To study the data collection methods.

SCOPE-

Throughout the workshop, participants will be able to understand the insider's perspective in the context of the given situation. And the participants will be able to apply their knowledge and skills with their capabilities of applying the qualitative research methodology.

LEARNING OUTCOMES: - at the end of the workshop the participants will be able to;

1. Apply their knowledge and skills in their own research.

2. Gain the knowledge of applying the study design and methodology.

3. Analyze process including method, techniques and evaluation.

Workshop Schedule

Sr No.	Time	Topic	Speaker
1.	12:30 pm	Selection of Research Topic	Dr Karibasappa
2.	01:00 pm	Literature Search	Dr Kamal Shigli
3.	01:30 pm	How to write a research title.	Dr Arti Hajarnavis
Tea-Break			
4.	02:30pm	How to write and present research protocol	Dr Anagha Shete
5.	03:00pm	Sampling & Data Collection	Dr Chirayu

The workshop, "Genesis: Understanding Research Methodology, MODULE - 1," held on November 6, 2023, at D Y Patil Dental School in Pune, aimed to provide interns with a robust understanding of the fundamental aspects of research methodology. Dr. Prasad Karande set the stage with an insightful introduction and orientation, creating an atmosphere of curiosity and eagerness among the participants.

Dr. Karibasappa's session on "Selection of Research Topic" served as a foundational pillar for the interns. His expertise guided the participants through the intricate process of identifying research areas relevant to dentistry. Stressing the importance of aligning personal interests with current trends, he instilled in the interns the significance of selecting a research topic that not only resonates with them but also contributes meaningfully to the field.

The subsequent lecture, "Literature Search" by Dr. Kamal Shigli, provided interns with essential skills in navigating the vast landscape of existing research. Her presentation highlighted effective strategies for database utilization, critical evaluation of literature, and synthesizing information. This session equipped interns with the tools to conduct a comprehensive literature review, a crucial step in shaping the direction and scope of their research projects.

Dr. Arti Hajarnavis took the stage to illuminate the interns on the art of crafting a compelling research title. Her session, "How to Write a Research Title," emphasized the importance of a concise yet impactful title. She shared valuable insights into capturing the essence of a study through a well-crafted title, a crucial element in attracting attention and conveying the purpose of the research.

The practical aspects of translating research ideas into structured protocols were addressed by Dr. Anagha Shete in her session, "How to Write and Present Research Protocol." Interns gained valuable insights into developing a robust research protocol, covering components such as the research question, study design, ethical considerations, and data analysis plans. Her expertise provided interns with a roadmap for effectively planning and executing their research projects.

The final segment of the workshop, "Sampling & Data Collection" by Dr.Chirayu, focused on the critical aspects of study design. His session provided interns with knowledge on selecting appropriate sample sizes, choosing sampling methods, and ensuring the reliability of data

collection. This session equipped interns with the tools needed to design studies that produce meaningful and generalizable results.

The workshop fostered an interactive learning environment through Q&A sessions, case studies, and practical exercises. The diverse range of topics covered, coupled with the varied backgrounds of the speakers, ensured that the workshop catered to the diverse interests and expertise levels of the interns.

In conclusion, "Genesis: Understanding Research Methodology, MODULE - 1," facilitated by D Y Patil Dental School, Pune, under the guidance of Dr. Anand Shigli, Dean, DYPDS, Pune, provided interns with a comprehensive understanding of research methodology. The combination of theoretical insights and practical guidance from the speakers laid a strong foundation for the interns, empowering them to embark on successful and impactful research journeys in the field of dentistry.

A Report of One Day Workshop on

"Biostatistics"

Jointly organized by

DY Patil Dental School, Pune

Date: 23 January2023 Venue – Sinhagand Dental College

Background-

A biostatistics workshop in a dental college would typically cover statistical methods and techniques relevant to dental research and practice. It might include topics such as data collection, study design, hypothesis testing, data analysis, and interpretation of results, all tailored to the specific needs and challenges of dental research. The workshop could also provide hands-on training with statistical software commonly used in dental research, helping participants gain practical skills for conducting and analyzing their own research studies.

AIM:- The aim of a biostatistics workshop in a dental college could be to equip students and faculty with the necessary statistical skills and knowledge to conduct and interpret research in dentistry. This includes understanding study design, data collection methods, statistical analysis, and interpretation of results, all tailored to the specific context of dental research.

OBJECTIVE:-

- 1. Providing students with a foundational understanding of statistical methods used in dental research.
- Equipping students with the skills to analyze and interpret data relevant to dental studies.
- Enhancing students' ability to critically evaluate research findings and scientific literature.
- Facilitating hands-on experience with statistical software commonly used in dental research

SCOPE-

A biostatistics workshop in a dental college can have significant benefits. It can help dental students and professionals understand how to analyze and interpret data related to oral health, clinical trials, epidemiological studies, and research in dentistry. This knowledge is crucial for evidence-based practice, research publications, and making informed decisions in dental care. Additionally, it can enhance skills in designing experiments, collecting data, and using statistical software, which are valuable in both academic and clinical settings. Overall, a biostatistics

workshop can greatly contribute to the professional development and research capabilities of students and faculty in a dental college

.LEARNING OUTCOMES: - at the end of the workshop the participants will be able to;

- 1Understanding basic statistical concepts and terminology relevant to dental research.
- Ability to interpret and critically evaluate statistical methods used in dental literature.
- Proficiency in conducting statistical analysis using software such as SPSS or R for dental research projects.
- Applications of statistical techniques to design, analyze, and interpret data from dental studies.

Workshop Schedule

Time	**Program Particulars**

ORGANISING COMMITTEE

Chief Patron: Dr Sameer Patil, Dean, Sinhagad Dental College

Patrons: Dr. Srinidhi

Members: Dr Vinayak Nehwade

Dr Deepali Shah

The workshop, "Biostatistics," held on January 23 2023, Sinhagad Dental College in Pune, aimed to provide PGs with a robust understanding of the fundamental aspects of research methodology. Dr. Srinidhi set the stage with an insightful introduction and orientation, creating an atmosphere of curiosity and eagerness among the participants.

Dr. Vinit Vinay session on “Introduction to Biostatistics " served as a foundational pillar for the interns. His expertise guided the participants through the intricate process of identifying research areas relevant to dentistry. Stressing the importance of aligning personal interests with current trends, he instilled in the interns the significance of selecting a research topic that not only resonates with them but also contributes meaningfully to the field.

The subsequent lecture, “Data." by **Dr. Vinit Vinay**, provided PGs with essential skills in navigating the vast landscape of existing research. Her presentation highlighted effective strategies for database utilization, critical evaluation of literature, and synthesizing information. This session equipped PGs with the tools to conduct a comprehensive literature review, a crucial step in shaping the direction and scope of their research projects.

Dr. Kadambari took the stage to illuminate the PGs on the art of crafting a compelling research title. His session, " Types of Data," emphasized the importance of a concise yet impactful title. he shared valuable insights into capturing the essence of a study through a well-crafted title, a crucial element in attracting attention and conveying the purpose of the research.

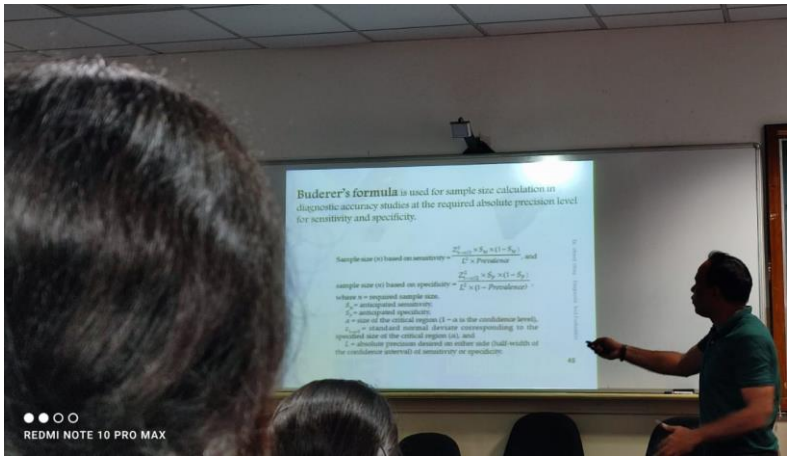

The practical aspects of translating research ideas into structured protocols were addressed by **Dr. Kadambari** in his session, “Sampling Design." PGs gained valuable insights into developing a robust research protocol, covering components such as the research question, study design, ethical considerations, and data analysis plans. his expertise provided interns with a roadmap for effectively planning and executing their research projects.

The final segment of the workshop, “SPSS demonstration “by **Dr. Vinit Vinay**, focused on the critical aspects of study design. His session provided PGs with knowledge on selecting appropriate sample sizes, choosing sampling methods, and ensuring the reliability of data collection. This session equipped PGs with the tools needed to design studies that produce meaningful and generalizable results.

The workshop fostered an interactive learning environment through Q&A sessions, case studies, and practical exercises. The diverse range of topics covered, coupled with the varied backgrounds of the speakers, ensured that the workshop catered to the diverse interests and expertise levels of the PGs.

In conclusion, "Biostatistics," facilitated by , Sinhagad Dental College, Pune, under the guidance of Dr.Sameer Patil, Dean, , Sinhagad Dental College , Pune, provided PGs with a comprehensive understanding of research methodology. The combination of theoretical insights and practical guidance from the speakers laid a strong foundation for the interns, empowering them to embark on successful and impactful research journeys in the field of dentistry.

The workshop, "Biostatistics," held on January 10th 2022, at D Y Patil Dental School in Pune, aimed to provide PGs with a robust understanding of the fundamental aspects of research methodology. Dr. Prasad Karande set the stage with an insightful introduction and orientation, creating an atmosphere of curiosity and eagerness among the participants.

Dr. Karibasappa's session on " Introduction to Biostatistics " served as a foundational pillar for the interns. His expertise guided the participants through the intricate process of identifying research areas relevant to dentistry. Stressing the importance of aligning personal interests with current trends, he instilled in the interns the significance of selecting a research topic that not only resonates with them but also contributes meaningfully to the field.

The subsequent lecture, " Data." by **Dr. Baig**, provided PGs with essential skills in navigating the vast landscape of existing research. Her presentation highlighted effective strategies for database utilization, critical evaluation of literature, and synthesizing information. This session equipped PGs with the tools to conduct a comprehensive literature review, a crucial step in shaping the direction and scope of their research projects.

Dr. Ravi Shirhatti took the stage to illuminate the PGs on the art of crafting a compelling research title. His session, " Types of Data," emphasized the importance of a concise yet impactful title. he shared valuable insights into capturing the essence of a study through a well-crafted title, a crucial element in attracting attention and conveying the purpose of the research.

The practical aspects of translating research ideas into structured protocols were addressed by . **Dr. Ravi Shirhatti** a in his session, " Sampling Design." PGs gained valuable insights into developing a robust research protocol, covering components such as the research question, study design, ethical considerations, and data analysis plans. his expertise provided interns with a roadmap for effectively planning and executing their research projects.

The final segment of the workshop, " SPSS demonstration " by **Dr. Baig**, focused on the critical aspects of study design. His session provided PGs with knowledge on selecting appropriate sample sizes, choosing sampling methods, and ensuring the reliability of data collection. This session equipped PGs with the tools needed to design studies that produce meaningful and generalizable results.

The workshop fostered an interactive learning environment through Q&A sessions, case studies, and practical exercises. The diverse range of topics covered, coupled with the varied backgrounds of the speakers, ensured that the workshop catered to the diverse interests and expertise levels of the PGs.

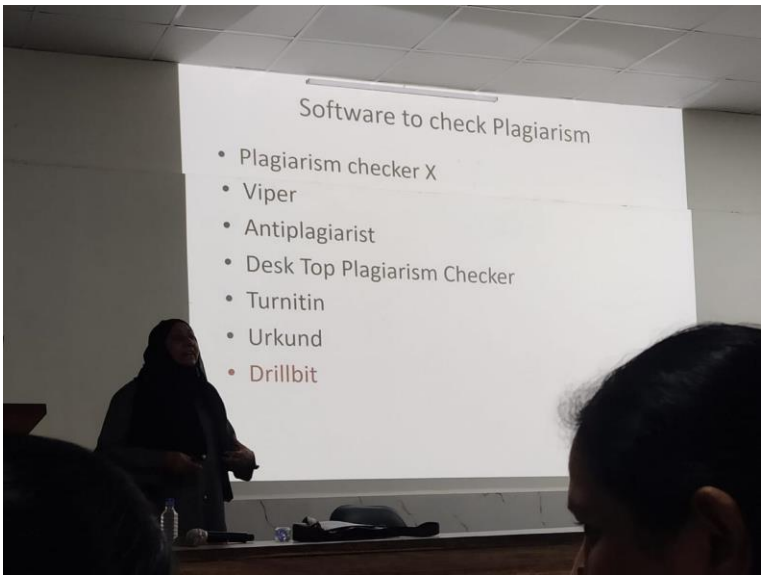

In conclusion, "Biostatistics," facilitated by D Y Patil Dental School, Pune, under the guidance of Dr. Anand Shigli, Dean, DYPDS, Pune, provided interns with a comprehensive understanding of research methodology. The combination of theoretical insights and practical guidance from the speakers laid a strong foundation for the interns, empowering them to embark on successful and impactful research journeys in the field of dentistry.

A Report of One Day Workshop on

"Biostatistics"

Jointly organized by

DY Patil Dental School, Pune

Date: 29th November 2021 Venue – Lecture Hall 4,

Background-

A biostatistics workshop in a dental college would typically cover statistical methods and techniques relevant to dental research and practice. It might include topics such as data collection, study design, hypothesis testing, data analysis, and interpretation of results, all tailored to the specific needs and challenges of dental research. The workshop could also provide hands-on training with statistical software commonly used in dental research, helping participants gain practical skills for conducting and analyzing their own research studies.

AIM:- The aim of a biostatistics workshop in a dental college could be to equip students and faculty with the necessary statistical skills and knowledge to conduct and interpret research in dentistry. This includes understanding study design, data collection methods, statistical analysis, and interpretation of results, all tailored to the specific context of dental research.

OBJECTIVE:-

- 1. Providing students with a foundational understanding of statistical methods used in dental research.
- Equipping students with the skills to analyze and interpret data relevant to dental studies.
- Enhancing students' ability to critically evaluate research findings and scientific literature.
- Facilitating hands-on experience with statistical software commonly used in dental research

SCOPE-

A biostatistics workshop in a dental college can have significant benefits. It can help dental students and professionals understand how to analyze and interpret data related to oral health, clinical trials, epidemiological studies, and research in dentistry. This knowledge is crucial for evidence-based practice, research publications, and making informed decisions in dental care. Additionally, it can enhance skills in designing experiments, collecting data, and using statistical software, which are valuable in both academic and clinical settings. Overall, a biostatistics

workshop can greatly contribute to the professional development and research capabilities of students and faculty in a dental college

.LEARNING OUTCOMES: - at the end of the workshop the participants will be able to;

- Understanding basic statistical concepts and terminology relevant to dental research.
- Ability to interpret and critically evaluate statistical methods used in dental literature.
- Proficiency in conducting statistical analysis using software such as SPSS or R for dental research projects.
- Application of statistical techniques to design, analyzes, and interprets data from dental studies.

.Workshop Schedule

Time	Program Particulars

The workshop, "Biostatistics," held on November 27, 2021, at D Y Patil Dental School in Pune, aimed to provide PGs with a robust understanding of the fundamental aspects of research methodology. Dr. Prasad Karande set the stage with an insightful introduction and orientation, creating an atmosphere of curiosity and eagerness among the participants.

Dr. Karibasappa's session on " Introduction to Biostatistics " served as a foundational pillar for the interns. His expertise guided the participants through the intricate process of identifying research areas relevant to dentistry. Stressing the importance of aligning personal interests with current trends, he instilled in the interns the significance of selecting a research topic that not only resonates with them but also contributes meaningfully to the field.

The subsequent lecture, " Data." by Dr. Dr. Karibasappa's, provided PGs with essential skills in navigating the vast landscape of existing research. Her presentation highlighted effective strategies for database utilization, critical evaluation of literature, and synthesizing information. This session equipped PGs with the tools to conduct a comprehensive literature review, a crucial step in shaping the direction and scope of their research projects.

Dr. Chirayu took the stage to illuminate the PGs on the art of crafting a compelling research title. His session, " Types of Data," emphasized the importance of a concise yet impactful title. he shared valuable insights into capturing the essence of a study through a well-crafted title, a crucial element in attracting attention and conveying the purpose of the research.

The practical aspects of translating research ideas into structured protocols were addressed by Dr. Karibasappa in his session, " Sampling Design." PGs gained valuable insights into developing a robust research protocol, covering components such as the research question, study design, ethical considerations, and data analysis plans. his expertise provided interns with a roadmap for effectively planning and executing their research projects.

The final segment of the workshop, " SPSS demonstration " by Dr.Karibasappa , focused on the critical aspects of study design. His session provided PGs with knowledge on selecting appropriate sample sizes, choosing sampling methods, and ensuring the reliability of data collection. This session equipped PGs with the tools needed to design studies that produce meaningful and generalizable results.

The workshop fostered an interactive learning environment through Q&A sessions, case studies, and practical exercises. The diverse range of topics covered, coupled with the varied backgrounds of the speakers, ensured that the workshop catered to the diverse interests and expertise levels of the PGs.

In conclusion, "Biostatistics," facilitated by D Y Patil Dental School, Pune, under the guidance of Dr. Anand Shigli, Dean, DYPDS, Pune, provided interns with a comprehensive understanding of research methodology. The combination of theoretical insights and practical guidance from the speakers laid a strong foundation for the PGs, empowering them to embark on successful and impactful research journeys in the field of dentistry.

The workshop, "Biostatistics," held on November 29th, 2019, at D Y Patil Dental School in Pune, aimed to provide Interns with a robust understanding of the fundamental aspects of research methodology. Dr. Prasad Karande set the stage with an insightful introduction and orientation, creating an atmosphere of curiosity and eagerness among the participants.

Dr. Karibasappa's session on “Introduction to Biostatistics " served as a foundational pillar for the interns. His expertise guided the participants through the intricate process of identifying research areas relevant to dentistry. Stressing the importance of aligning personal interests with current trends, he instilled in the interns the significance of selecting a research topic that not only resonates with them but also contributes meaningfully to the field.

The subsequent lecture, "Data." by Dr.Prashant Vishwakarma, provided interns with essential skills in navigating the vast landscape of existing research. Her presentation highlighted effective strategies for database utilization, critical evaluation of literature, and synthesizing information. This session equipped interns with the tools to conduct a comprehensive literature review, a crucial step in shaping the direction and scope of their research projects.

Dr. Madhri took the stage to illuminate the PGs on the art of crafting a compelling research title. Her session, "Types of Data," emphasized the importance of a concise yet impactful title. he shared valuable insights into capturing the essence of a study through a well-crafted title, a crucial element in attracting attention and conveying the purpose of the research.

The practical aspects of translating research ideas into structured protocols were addressed by Dr. Karibasappa in his session, “Sampling Design." PGs gained valuable insights into developing a robust research protocol, covering components such as the research question, study design, ethical considerations, and data analysis plans. his expertise provided interns with a roadmap for effectively planning and executing their research projects.

The final segment of the workshop, “SPSS demonstration “by Dr.Prashant , focused on the critical aspects of study design. His session provided PGs with knowledge on selecting appropriate sample sizes, choosing sampling methods, and ensuring the reliability of data collection. This session equipped Interns with the tools needed to design studies that produce meaningful and generalizable results.

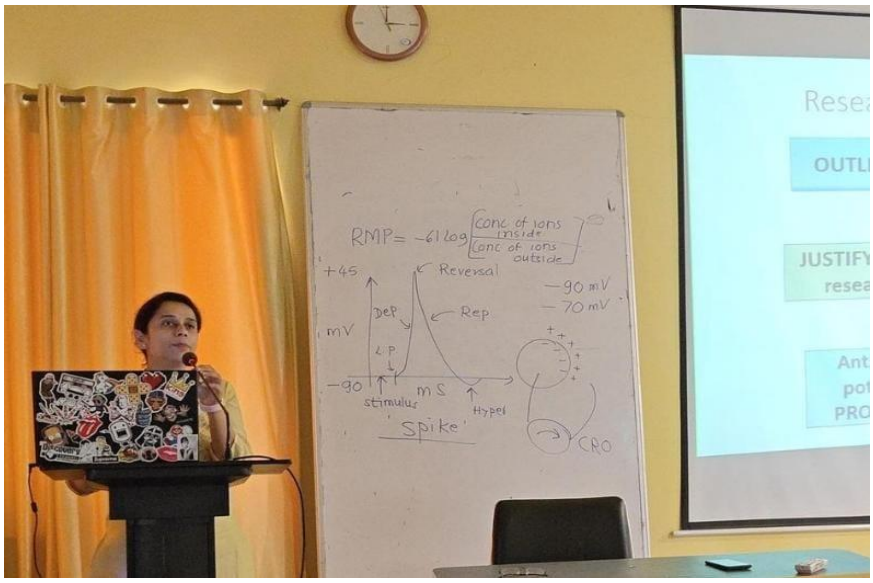

The workshop fostered an interactive learning environment through Q&A sessions, case studies, and practical exercises. The diverse range of topics covered, coupled with the varied backgrounds of the speakers, ensured that the workshop catered to the diverse interests and expertise levels of the PGs.

In conclusion, "Biostatistics," facilitated by D Y Patil Dental School, Pune, under the guidance of Dr. Anand Shigli, Dean, DYPDS, Pune, provided interns with a comprehensive understanding of research methodology. The combination of theoretical insights and practical guidance from the speakers laid a strong foundation for the interns, empowering them to embark on successful and impactful research journeys in the field of dentistry.

A Report on Guest Lecture on

"Introduction to Bioethics in Dentistry"

Organized by

Dept. of Public Health Dentistry, DY Patil Dental School, Pune

Date-26th and 27th June 2023. Venue –Lecture Hall 1,

Background:

Creation and dissemination of knowledge through research is one of the core functions of the higher learning institutions. Apart from generating new knowledge, the higher learning institutions, particularly the universities also have the responsibility of training the intellectual manpower required for all sectors of the society.

Quality of manpower is the most important factor for producing good quality researchers. With the passage of time, research as an activity has not received due attention in higher education institutions. Research is considered as a prerequisite for obtaining the degree only. Lack of adequate infrastructure, resource constraints, lack of motivation coupled with a few other factors do not encourage the meritorious students to take up research as a career option. As a result, the quality of the research conducted in higher education institutions has projected a declining trend. This has raised a concern among the academic community, social thinkers and policy makers.

Amongst all other factors, training of the researchers is the most crucial one. At present, in most of the higher education institutions, except a few disciplines, there is no adequate provision of training on research methodology. The research students often depend upon the supervisor/guide for even finding a suitable research problem. They also find it difficult to proceed further independently. To improve the situation there is a need for providing training on research methodology to the young scholars.

Research is the systematic and objective process of gathering, recording and analysing data for taking appropriate & meaningful decisions. It connotes patient study and scientific investment, wherein the researcher takes a more careful look at data to discover all that could be known more deeply about the subject under study. Applied research facilitates managerial decision-making and reduces uncertainty. To keep pace with the recent advancement in any discipline, one has to be well versed with the latest developments in research methodology.

Aim : To explore the basic dimensions of research and the concomitant need for participants to rethink about the assumptions that underlie historic paradigms of research in the field of science.

Objectives:

At the end of this workshop participants will be able to recognize:

(i) Fundamentals in Research Methodology.

(ii) Practical sessions with Suitable Illustrations and Demonstrations.

(iii) Coverage of Analysis Techniques.

(iv) Sampling Design and Analysis Techniques.

(v) Exposure of Data Analysis Techniques by SPSS.

(vi) Discussion on the Interpretations of Results and Presentation

Expected Learning Outcomes

(i)Understanding of Research Concepts & Methodology.

(ii) Choose the Right Statistical Technique for Different Research Questions.

(iii) Analyse Data using Basic and Advance Statistical Techniques in Statistical Software.

(iv) Interpret Analysis Output Tables and Report Findings for Publishing

Schedule:

Day 1 : 26th June 2023			
Sl No	**Time**	**Topic**	**Resource Person**
1	9:30-10:30	Introduction to Bioethics	Dr Karibasappa G N (BDS, MDS Community Dentistry)
2	10:45-11:45	Informed Consent and Patient Autonomy	Dr Kulkarni Shriram Gururaj (BDS, MDS Community Dentistry)
3	11:45-1:00	Lunch Break	
4	1:15-2-15	Ethical Issues in Patient Confidentiality	Dr Karibasappa G N (BDS, MDS Community Dentistry)
5	2:30-3-30	Ethical Challenges in Treatment Planning and Referrals	Dr Kulkarni Shriram Gururaj (BDS, MDS Community Dentistry)
Day 2 : 27th June 2023			
1	9:30-10:30	Professionalism and Ethical Conduct	Dr Karibasappa G N (BDS, MDS Community Dentistry)
2	10:45-11:45	Ethical Issues in Dental Research	Dr Kulkarni Shriram Gururaj (BDS, MDS Community Dentistry)
3	11:45-1:00	Lunch Break	
4	1:15-2:15	Ethical Challenges in End-of-Life Dental Care	Dr Karibasappa G N (BDS, MDS Community Dentistry)
5	2:30-3:30	Case Studies and Discussion	Dr Karibasappa G N (BDS, MDS Community Dentistry) Dr Kulkarni Shriram Gururaj (BDS, MDS Community Dentistry)

Details of the programme;

Introduction: Certainly Bioethics is a crucial field for dental students, as it involves navigating complex moral and ethical dilemmas within the context of dentistry. Here are some key topics discussed during the lecture

Day 1: 26th June 2023

Session 1: Introduction to Bioethics

In this session, students were introduced to the concept of bioethics and its relevance in the field of dentistry. They learnt about the ethical principles commonly applied in healthcare settings and how these principles guide decision-making in dental practice.

Mentor: Dr Karibasappa G N

- Overview of bioethics and its relevance in dentistry
- Ethical principles and their application in dental practice
- Discussion on ethical dilemmas in dentistry

Session 2: Informed Consent and Patient Autonomy

This session focused on the importance of informed consent in dental procedures. Students learnt about the key elements of informed consent and the process of obtaining it from patients.

Mentor: Dr Kulkarni Shriram Gururaj

- Importance of informed consent in dental procedures
- Elements and process of obtaining informed consent
- Respect for patient autonomy and decision-making in dental care

Session 3: Ethical Issues in Patient Confidentiality

This session explored the ethical aspects of handling patient information and medical records. Students learnt about the importance of maintaining patient confidentiality while fulfilling legal and ethical obligations.

Mentor: Dr Karibasappa G N

- Confidentiality and privacy considerations in dental practice
- Handling patient information and medical records
- Balancing confidentiality with legal and ethical obligations

Session 4: Ethical Challenges in Treatment Planning and Referrals

Ethical decision-making in treatment planning and case selection was discussed in this session. Students examined ethical considerations when referring patients to specialists and the importance of effective collaboration and communication among dental professionals.

Mentor: Dr Kulkarni Shriram Gururaj

- Ethical decision-making in treatment planning and case selection
- Ethical considerations when referring patients to specialists
- Collaboration and communication among dental professionals

Day 2: 27th June 2023

Session 5: Professionalism and Ethical Conduct

This session focused on the professional responsibilities and ethical behavior expected of dental practitioners. Topics covered included maintaining professional boundaries, avoiding conflicts of interest, and adhering to ethical standards in advertising and marketing dental services.

Mentor: Dr Karibasappa G N

- Professional responsibilities and ethical behavior in dentistry
- Maintaining professional boundaries and avoiding conflicts of interest
- Ethical considerations in advertising and marketing dental services

Session 6: Ethical Issues in Dental Research

Research ethics in dentistry was explored in this session. Students learnt about ethical principles when conducting research involving human subjects. Topics covered included obtaining informed consent from research participants, protecting their rights, and addressing potential conflicts of interest.

Mentor: Dr Kulkarni Shriram Gururaj

- Ethical principles in dental research involving human subjects
- Informed consent in research studies and protection of participants
- Responsible conduct of research and potential conflicts of interest

Session 7: Ethical Challenges in End-of-Life Dental Care

The ethical considerations in providing dental care for terminally ill patients were discussed in this session. Students learnt about palliative and supportive dental care approaches, collaborating with other healthcare professionals, and addressing ethical issues that may arise in end-of-life dental care.

Mentor: Dr Karibasappa G N

- Ethical considerations in providing dental care for terminally ill patients
- Palliative and supportive dental care approaches
- Collaboration with other healthcare professionals in end-of-life care

Session 8: Case Studies and Discussion

In this interactive session, students were engaged in analyzing real-life ethical dilemmas in dental practice. They participated in group discussions and critical thinking exercises, applying ethical decision-making frameworks and strategies to resolve ethical challenges.

Mentor: Dr Karibasappa G N, Dr Kulkarni Shriram G.

- Analysis of real-life ethical dilemmas in dental practice
- Group discussions and critical thinking exercises
- Ethical decision-making frameworks and strategies

A Report on Guest Lecture on

"Introduction to Bioethics in Dentistry"

Organized by

Dept. of Public Health Dentistry, DY Patil Dental School, Pune

Date-14th June 2022. Venue –Central Liberary

Background:

A specialized lecture on bioethics aims to offer dental students a thorough exploration of the ethical principles steering dental practice, encompassing autonomy, beneficence, non-malfeasance, and justice. It will delve into crucial subjects like patient confidentiality, informed consent, ethical quandaries in treatment planning, and the duties of dental practitioners towards vulnerable populations.

Aim: The goal of the bioethics lecture for dental students is to furnish them with a comprehensive comprehension of the ethical principles and concerns that are fundamental to dental practice..

Objectives:

The objective of the bioethics guest lecture for dental students is to offer a comprehensive understanding of ethical principles and their practical application in dental practice. The specific aims include:

• Clarifying Fundamental Ethical Principles

• Enhancing Ethical Reasoning Skills

• Encouraging Ethical Patient Interaction

Learning Outcomes: The learning outcomes of the bioethics guest lecture for dental students are crafted to ensure they acquire a comprehensive and pragmatic comprehension of ethical principles in dental practice. By the conclusion of the lecture, students will be proficient in**:**

(i) Grasping and Expressing Core Ethical Principles

(ii) Analyzing and Resolving Ethical Dilemmas

(iii) Honoring Patient Rights and Autonomy

Schedule:

14th June 2022

A Report on Guest Lecture on

“Introduction to Bioethics in Dentistry”

Organized by

Dept. of Public Health Dentistry, DY Patil Dental School, Pune

Date- 21st September 2021. Venue –Lecture Hall 4

Background:

A special presentation concerning bioethics aims to furnish dental students with a comprehensive understanding of the moral standards steering dental practice, encompassing autonomy, beneficence, non-malfeasance, and justice. This session will delve into crucial subjects such as maintaining patient confidentiality, obtaining informed consent, grappling with ethical quandaries during treatment strategizing, and elucidating the obligations of dental practitioners toward marginalized groups.

Aim: The objective of the bioethics lecture for dental students is to provide them with a comprehensive grasp of the moral principles and challenges that are fundamental to dental practice.

Objectives:

The goal of the guest lecture on bioethics for dental students is to offer a thorough comprehension of ethical principles and their practical implementation in dental practice. The specific aims include::

• Elucidate Fundamental Ethical Principles

• Enhance Ethical Reasoning Abilities

• Foster Ethical Patient Engagement

Learning Outcomes: The learning outcomes of the bioethics guest lecture for dental students are tailored to guarantee a comprehensive and pragmatic grasp of ethical principles in dental practice. By the conclusion of the lecture, students will be capable of:

(i) Comprehend and Articulate Fundamental Ethical Principles:
(ii) Evaluate and Address Ethical Challenges
(iii) Respect Patient Autonomy and Rights

Details of the programme;

Introduction: Undoubtedly, Bioethics holds immense importance for dental students, as it entails navigating intricate moral and ethical quandaries within the realm of dentistry. Here are some pivotal topics broached during the sessions:

Session 1: Introduction to Bioethics

During this session, students received an introduction to the concept of bioethics and its significance within the dental field. They gained insights into the ethical principles commonly utilized in healthcare environments and how these principles inform decision-making processes in dental practice.

Mentor: Dr Karibasappa G N

- Overview of bioethics and its relevance in dentistry
- Ethical principles and their application in dental practice
- Discussion on ethical dilemmas in dentistry

Session 2: Informed Consent and Patient Autonomy

This session emphasized the significance of informed consent in dental procedures. Students were educated about the essential components of informed consent and the procedure involved in obtaining it from patients.
Mentor: Dr Chirayu

- Importance of informed consent in dental procedures
- Elements and process of obtaining informed consent
- Respect for patient autonomy and decision-making in dental care

Session 3: Ethical Issues in Patient Confidentiality

During this session, the ethical dimensions of managing patient information and medical records were examined. Students were instructed on the importance of upholding patient confidentiality while simultaneously meeting legal and ethical responsibilities.

Mentor: Dr Karibasappa G N

- Confidentiality and privacy considerations in dental practice
- Handling patient information and medical records
- Balancing confidentiality with legal and ethical obligations

Session 4: Validation and Certificate distribution

A Report on Guest Lecture on

"Introduction to Bioethics in Dentistry"

Organized by

Dept. of Public Health Dentistry, DY Patil Dental School, Pune

Date-15th September 2020. Venue –Lecture Hall 4

Background:

A guest lecture on bioethics will provide dental students with an in-depth look at the ethical principles that guide dental practice, such as autonomy, beneficence, non-malfeasance, and justice. It will cover key topics including patient confidentiality, informed consent, ethical dilemmas in treatment planning, and the responsibilities of dental professionals to vulnerable populations.

Aim: The aim of the bioethics lecture for dental students is to equip them with a thorough understanding of the ethical principles and issues that are integral to dental practice

Objectives:

The objective of the bioethics guest lecture for dental students is to provide a comprehensive understanding of ethical principles and their application in dental practice. The specific objectives are to:

- Explain Fundamental Ethical Principle
- . Develop Ethical Reasoning Skills:
- Promote Ethical Patient Interaction:

Learning Outcomes: The learning outcomes of the bioethics guest lecture for dental students are designed to ensure that they gain a thorough and practical understanding of ethical principles in dental practice. By the end of the lecture, students will be able to

(i) Understand and Articulate Core Ethical Principles:

(ii) Analyze and resolve these dilemmas

(iii) Respect Patient Rights and Autonomy.

Details of the programme;

Introduction: Certainly Bioethics is a crucial field for dental students, as it involves navigating complex moral and ethical dilemmas within the context of dentistry. Here are some key topics discussed during the works

Session 1: 9:30-10:30 -Introduction to Bioethics

In this session, students were introduced to the concept of bioethics and its relevance in the field of dentistry. They learnt about the ethical principles commonly applied in healthcare settings and how these principles guide decision-making in dental practice.

Mentor: Dr Karibasappa G N

- Introduction to Bioethics and its Pertinence in Dentistry
- Ethical Principles and Their Implementation in Dental Practice
- Deliberation on Ethical Dilemmas in Dentistry

Session 2: 10:45-11:45 -Informed Consent and Patient Autonomy

This session focused on the importance of informed consent in dental procedures. Students learnt about the key elements of informed consent and the process of obtaining it from patients.

Mentor: Dr Madhuri

- Importance of informed consent in dental procedures
- Elements and process of obtaining informed consent
- Respect for patient autonomy and decision-making in dental care

Session 3: 1:15-2-15- Ethical Issues in Patient Confidentiality

This session explored the ethical aspects of handling patient information and medical records. Students learnt about the importance of maintaining patient confidentiality while fulfilling legal and ethical obligations.

Mentor: Dr Karibasappa G N

- Confidentiality and privacy considerations in dental practice
- Handling patient information and medical records
- Balancing confidentiality with legal and ethical obligations

Session 4: 2:30-3-00 - Validation and Certificate distribution

A Report of Two Day Workshop on

"Introduction to Bioethics in Dentistry"

Organized by

Dept. of Public Health Dentistry, DY Patil Dental School, Pune

Date-25th and 26th June 2019. Venue –Lecture Hall 1, Central Library

Background:

Creation and dissemination of knowledge through research is one of the core functions of the higher learning institutions. Apart from generating new knowledge, the higher learning institutions, particularly the universities also have the responsibility of training the intellectual manpower required for all sectors of the society.

Quality of manpower is the most important factor for producing good quality researchers. With the passage of time, research as an activity has not received due attention in higher education institutions. Research is considered as a prerequisite for obtaining the degree only. Lack of adequate infrastructure, resource constraints, lack of motivation coupled with a few other factors do not encourage the meritorious students to take up research as a career option. As a result, the quality of the research conducted in higher education institutions has projected a declining trend. This has raised a concern among the academic community, social thinkers and policy makers.

Amongst all other factors, training of the researchers is the most crucial one. At present, in most of the higher education institutions, except a few disciplines, there is no adequate provision of training on research methodology. The research students often depend upon the supervisor/guide for even finding a suitable research problem. They also find it difficult to proceed further independently. To improve the situation there is a need for providing training on research methodology to the young scholars.

Research is the systematic and objective process of gathering, recording and analysing data for taking appropriate & meaningful decisions. It connotes patient study and scientific investment, wherein the researcher takes a more careful look at data to discover all that could be known more deeply about the subject under study. Applied research facilitates managerial decision-making and reduces uncertainty. To keep pace with the recent advancement in any discipline, one has to be well versed with the latest developments in research methodology.

Aim : To explore the basic dimensions of research and the concomitant need for participants to rethink about the assumptions that underlie historic paradigms of research in the field of science.

Objectives:

At the end of this workshop participants will be able to recognize:

(i) Fundamentals in Research Methodology.

(ii) Practical sessions with Suitable Illustrations and Demonstrations.

(iii) Coverage of Analysis Techniques.

(iv) Sampling Design and Analysis Techniques.

(v) Exposure of Data Analysis Techniques by SPSS.

(vi) Discussion on the Interpretations of Results and Presentation

Expected Learning Outcomes

(i)Understanding of Research Concepts & Methodology.

(ii) Choose the Right Statistical Technique for Different Research Questions.

(iii) Analyse Data using Basic and Advance Statistical Techniques in Statistical Software.

(iv) Interpret Analysis Output Tables and Report Findings for Publishing

Schedule:

Day 1 : 25th June 2019			
Sl No	**Time**	**Topic**	**Resource Person**
1	9:30-10:30	Introduction to Bioethics	Dr Karibasappa G N (BDS, MDS Community Dentistry)

Details of the programme;

Introduction: Certainly Bioethics is a crucial field for dental students, as it involves navigating complex moral and ethical dilemmas within the context of dentistry. Here are some key topics discussed during the workshop

Session 1: Introduction to Bioethics

In this session, students were introduced to the concept of bioethics and its relevance in the field of dentistry. They learnt about the ethical principles commonly applied in healthcare settings and how these principles guide decision-making in dental practice.

Mentor: Dr Karibasappa G N

- Overview of bioethics and its relevance in dentistry
- Ethical principles and their application in dental practice
- Discussion on ethical dilemmas in dentistry

Session 2: Informed Consent and Patient Autonomy

This session focused on the importance of informed consent in dental procedures. Students learnt about the key elements of informed consent and the process of obtaining it from patients.

Mentor: Dr. Madhuri

- Importance of informed consent in dental procedures
- Elements and process of obtaining informed consent
- Respect for patient autonomy and decision-making in dental care

Session 3: Ethical Issues in Patient Confidentiality

This session explored the ethical aspects of handling patient information and medical records. Students learnt about the importance of maintaining patient confidentiality while fulfilling legal and ethical obligations.

Mentor: Dr Karibasappa G N

- Confidentiality and privacy considerations in dental practice
- Handling patient information and medical records
- Balancing confidentiality with legal and ethical obligations

Session 4: Ethical Challenges in Treatment Planning and Referrals

Ethical decision-making in treatment planning and case selection was discussed in this session. Students examined ethical considerations when referring patients to specialists and the importance of effective collaboration and communication among dental professionals.

Mentor: Dr. Madhuri

- Ethical decision-making in treatment planning and case selection
- Ethical considerations when referring patients to specialists
- Collaboration and communication among dental professionals

Day 2: 26th June 2019

Session 5: Professionalism and Ethical Conduct

This session focused on the professional responsibilities and ethical behavior expected of dental practitioners. Topics covered included maintaining professional boundaries, avoiding conflicts of interest, and adhering to ethical standards in advertising and marketing dental services.

Mentor: Dr Karibasappa G N

- Professional responsibilities and ethical behavior in dentistry
- Maintaining professional boundaries and avoiding conflicts of interest
- Ethical considerations in advertising and marketing dental services

Session 6: Ethical Issues in Dental Research

Research ethics in dentistry was explored in this session. Students learnt about ethical principles when conducting research involving human subjects. Topics covered included obtaining informed consent from research participants, protecting their rights, and addressing potential conflicts of interest.

Mentor: D Dr. Madhuri

- Ethical principles in dental research involving human subjects
- Informed consent in research studies and protection of participants
- Responsible conduct of research and potential conflicts of interest

Session 7: Ethical Challenges in End-of-Life Dental Care

The ethical consideration in providing dental care for terminally ill patients was discussed in this session. Students learnt about palliative and supportive dental care approaches, collaborating with other healthcare professionals, and addressing ethical issues that may arise in end-of-life dental care.

Mentor: Dr Karibasappa G N

- Ethical considerations in providing dental care for terminally ill patients
- Palliative and supportive dental care approaches
- Collaboration with other healthcare professionals in end-of-life care

Session 8: Case Studies and Discussion

In this interactive session, students were engaged in analyzing real-life ethical dilemmas in dental practice. They participated in group discussions and critical thinking exercises, applying ethical decision-making frameworks and strategies to resolve ethical challenges.

Mentor: Dr Karibasappa G N, Dr. Madhuri.

- Analysis of real-life ethical dilemmas in dental practice
- Group discussions and critical thinking exercises
- Ethical decision-making frameworks and strategies

A Report of One Day Workshop on

"Green Planet Fest Celebration"

Jointly organized by

Dept. of Conservative Dentistry and Endodontics
DY Patil Dental School, Pune

Date- 05/06/2023 Venue –D. Y. Patil Dental School

Background-

Green Planet Fest Celebration in a dental college could involve various activities and initiatives aimed at raising awareness about sustainability and environmental conservation within the dental community. This might include organizing events such as tree planting drives, seminars on eco-friendly dental practices, recycling programs for dental materials, promoting paperless documentation, and incorporating sustainable practices into dental curriculum and clinics..

AIM:- The celebration of Green Planet Fest in a dental college aims to raise awareness among students and faculty about the importance of environmental conservation and sustainable practices within the dental profession.

OBJECTIVE:-

The objective of celebrating Green Planet Fest in a dental college could be to provide students and faculty with a break from their routine studies and clinical work, promoting stress relief and relaxation

SCOPE-

Celebrating Environmental Day at a dental college could involve various activities such as awareness campaigns about sustainable dental practices, tree planting drives, lectures on the importance of environmental conservation in dental healthcare, workshops on eco-friendly dental materials and techniques, and perhaps even dental camps for underprivileged communities with a focus on oral health and environmental education

LEARNING OUTCOMES: - The celebration of Entertainment Day in a dental college can have various learning outcomes, including:

- Stress Relief: Students can learn the importance of taking breaks and engaging in recreational activities for stress relief, which can contribute to overall well-being and productivity.
- Team Building: Participation in organizing and performing in entertainment activities fosters teamwork and collaboration among students, promoting a sense of community within the college.
- Creativity: Planning and executing entertainment events allow students to express their creativity in various forms such as skits**,** music, dance, or art, enhancing their creative thinking skills.

Schedule

- **DATE**:05/06/2023
- **VENUE**: **TIME:** 10.0am - 1:00 pm
- **PROGRAMME CONDUCTOR**: Scientific Committee and Public Health Dentistry
- **SUMMARY** : Tree Plantation drive was carried out in campus. Around 50 trees were planted. Cleaning up of the campus grounds and hill alongside was conducted

A Report on Guest Lecture on

"US Dental Education Pathways"

Jointly organized by

Student Council
DY Patil Dental School, Pune

Date-7th February 2023 Venue –Lecture Hall No.1

BACKGROUND-

Exploring Opportunities and Specializations would be beneficial for dental students. It could cover topics like further education options (MDS, specialization courses), career opportunities in private practice, government sectors, research, academia, and public health, as well as entrepreneurial avenues in dentistry. Additionally, sessions on resume building, interview skills, and networking strategies tailored to dental professionals would be valuable.

AIM: -The aim of the Guest Lecture is likely to provide guidance and information to dental students about their career options and pathways after completing their bachelor's degree.

OBJECTIVE: -

The objective of a Guest Lecture on "US Dental Education Pathways " would likely be to provide guidance and information to dental students who have completed their Bachelor of Dental Surgery (BDS) degree, helping them explore their career options, further education opportunities, licensure requirements, and pathways for specialization or professional development in the field of dentistry.

SCOPE-

This Guest Lecture could cover a range of topics including career options such as specialization, further studies like MDS (Master of Dental Surgery), alternative career paths in research, public health, or dental education, and practical advice on job opportunities, entrepreneurship, and professional development.

LEARNING OUTCOMES:

The learning outcomes of this Guest Lecture would be

1) Understanding career options
2) Exploring specialization options
3) Developing career planning skills

Schedule

Time	**Program Particulars**	
3.00- 4.00pm	Specialization and further education opportunities, Skill development and additional certifications, financial planning and investment in further education	**Dr. Sanket Nagarkar (BDS, DDS Minnesota, USA)**

ORGANISING COMMITTEE

Chief Patron: Dr Anand Shigli, Dean, DYPDS

Patrons: Dr Varsha Mirani

Members: Dr Prasad Karande

Convener: Dr Anagha Motgi

A report on Guest Lecture on "US Dental Education Pathways"

1. Introduction: Guest lecture serves as a guide for dental students exploring post-graduation options. It typically covers topics such as career pathways, specialization options, residency programs, further education prospects, and opportunities in research or private practice. The workshop aims to provide insight into navigating the transition from dental school to the professional world and helps students make informed decisions about their future career paths.

2. Schedule:

3.00-4.00 pm - Introduction to US Dental Education Pathways

Dr. Sanket Nagarkar provided an insightful introduction to the objectives and scope of US Dental Education Pathways for outgoing students of the college, highlighted what are opportunities available after completing the BDS degree, explained about how the personal skills can be developed in dental practice and also to pursue certificate courses to enhance the practice.

Dr Sanket Nagarkar explained about importance of financial planning and investment for higher education.

3. Conclusion: This lecture created positive attitude among the students at college and it will help the students for choosing perfect path for further studies and opportunities after BDS

4. Acknowledgments: A special thanks to Dr. Anand Shigli, for their contributions to the success of the lecture. Thanks also to all participants for their active engagement and contributions.

Reports on one day workshop on "Career Counseling Overseas Programme"

Jointly organized by

Scientific Council
DY Patil Dental School, Pune

Date-16 December 2022. Venue – Lecture Hall no.1

BACKGROUND-

The background of our career counseling overseas programs is rooted in the belief that every individual deserves the opportunity to pursue their academic and professional goals on a global scale. With a team of experienced counselors and advisors, we understand the complexities and intricacies of navigating international education and career pathways. Whether it's exploring study abroad opportunities, pursuing international internships, or seeking employment overseas, our goal is to empower individuals to make informed decisions and achieve success in their chosen endeavors. Through personalized counseling sessions, access to a network of global resources, and ongoing support, we strive to facilitate meaningful cross-cultural experiences and open doors to exciting international opportunities for our participants.

AIM: -This programme was aimed to provide comprehensive guidance and support tailored to the unique needs and aspirations of each participant.

OBJECTIVE: -

The objective of a career counselling overseas programme workshop is to help the students with the necessary guidance, resources, and support to pursue academic and professional opportunities abroad effectively.

SCOPE-

The scope of a career counselling workshop is broad and encompasses various aspects of career development and decision-making and various strategies to develop the career across the globe scale.

LEARNING OUTCOMES: - at the end of the workshop the participants will be able to:

1. Clarify career goals for the participants.

2. Understanding of career development principles.

3.Developing the right strategies.

Workshop Schedule

A Report on Guest Lecture on

"Career Choices a foreign trained dentist can make in the United States."

Jointly organized by

Scientific Council
DY Patil Dental School, Pune

Date-21June, 2021. Venue –Webinar

BACKGROUND-

The Rock your Smile in the USA is designed to provide aspiring dental professional with comprehensive guidance and support as they embark their journey towards a rewarding career in dentistry in foreign. Hosted by one of the best experienced dental professional and career counsellors, this workshop aims to empower participants with knowledge, skills and resources needed to make informed decisions and give exposure to key career opportunities to the participants in the foreign states.

AIM: - The aim of a career counseling guest lecture in foreign states is to guide the participants to work in foreign country and explore the dentistry

OBJECTIVE: -

The objective of a guest lecture would likely encompass a comprehensive overview of the various aspects involved in becoming and succeeding as a dentist in the United States, Understanding Educational Requirements, Navigating Licensing Procedures, Emphasizing Professional Ethics and Conduct.

SCOPE-

The scope of a career counseling guest lecture is broad and encompasses various aspects of career development and decision-making for the training in USA. And the participants will be able to apply their knowledge and skills with their capabilities of applying the various methods to shape their future.

LEARNING OUTCOMES: - at the end of the guest lecture the participants will be able to:

1. Clarify career goals for the students in USA.

2. Understanding of career development principles.

3. Developing the right strategies.

A Report on one day workshop on

"Career Counselling to BDS Students"

Jointly organized by

Dept. of Conservative Dentistry and Endodontics
DY Patil Dental School, Pune

Date-7 March, 2019. Venue – Lecture Hall no.1

BACKGROUND-

The dental career counselling workshop to BDS students is designed to provide aspiring dental professional with comprehensive guidance and support as they embark their journey towards a rewarding career in dentistry. Hosted by one of the best experienced dental professional and career counsellors, this workshop aims to empower participants with knowledge, skills and resources needed to make informed decisions and give exposure to key career opportunities.

AIM: - The aim of a career counselling workshop is multifaceted and can vary based on the specific needs and goals of the participants.

OBJECTIVE: -

The objective of a career counselling workshop is to help the students to improve their motivation and satisfaction and help them choose practical plans for their professional lives, provide individuals with guidance, information, and support to help them make informed decisions about their career paths.

SCOPE-

The scope of a career counselling workshop is broad and encompasses various aspects of career development and decision-making. And the participants will be able to apply their knowledge and skills with their capabilities of applying the various methods to shape their future.

LEARNING OUTCOMES: - at the end of the workshop the participants will be able to:

1. Clarify career goals for the students

2. Understanding of career development principles.

3. Determine their strength and weakness

4.Developing the right strategies.

A report on workshop on "How to build successful professional life"

1. Introduction: The scope of How to build successful career workshop typically includes various aspects related to dental practice, such as clinical skills training, dental procedures, patient management, ethical considerations, and professional development. It may cover topics like dental anatomy, oral pathology, restorative dentistry, periodontics, endodontics, and oral surgery. Workshops may also focus on the latest advancements in dental technology and techniques, as well as addressing challenges faced by dental professionals in their practice.

2. Day 1

9:30 - 10:00 am - Inauguration:

Dr. Anand Shigli, Dean of DY Patil Dental School, inaugurated the workshop, emphasizing the importance of qualitative research in the dental field.

10:00 - 11:00 am - Introduction to How to Build Successful Professional Life

Dr. Anand Patil provided an insightful introduction overview of BDS program, career prospects and the role of dentist in health care.

11:05 am - 12:00 noon – Basic sciences

Dr. Anand Patil highlighted the fundamentals of anatomy physiology and biochemistry relevant to dentistry

12:00 - 1:00 pm – Clinical dentistry.

In this session Dr. Anand Patil covered various hand on clinical procedure such as dental examinations cavity preparations and restorations

1:00 - 1:30 pm – Valedictory and Certificate distribution

-

3. Conclusion: This Guest Lecture created positive attitude among the students of college and it will definitely helps the students build career in BDS degree and motivation of practicing clinical dentistry

4. Acknowledgments: A special thanks to Dr. Anand Shigli, for their contributions to the success of the Guest Lecture. Thanks also to all participants for their active engagement and contributions

A Report on Guest Lecture on

"Tooth Tech- Innovating future of Dentistry"

Jointly organized by

Dept. of Conservative Dentistry and Endodontics
DY Patil Dental School, Pune

Date-12/11/2022 Venue –Conference Hall, Central Library

Background-

Tooth Tech- Innovating future of Dentistry Guest Lecture would helps the students to understand the various career option including specialization in further degree, selecting emerging trend and advancement in the field of dentistry.

AIM:-

The aim of conducting a Guest Lecture on the Tooth Tech- Innovating future of Dentistry for dental students is to provide them with comprehensive information about the career opportunities, specializations, and advancements available in the field. This Guest Lecture can cover topics such as career pathways, postgraduate options, emerging trends in dentistry, research opportunities, and the importance of continuing education.

OBJECTIVE:- The objective of a Tooth Tech- Innovating future of Dentistry Guest Lecture for dental students could include:

- Enhancing clinical skills
- Promoting professional development
- Introducing new technologies

SCOPE-

Organizing a Guest Lecture on the Tooth Tech- Innovating future of Dentistry for dental students can be highly beneficial. It could cover various aspects such as career opportunities, specialization options, further education paths, research opportunities, entrepreneurship possibilities, and emerging trends in the field.

LEARNING OUTCOMES: - The learning outcomes of a Tooth Tech- Innovating future of Dentistry Guest Lecture for dental students may include:

- Understanding the scope of practice for BDS graduates, including clinical, research, and academic pathways.
- Familiarization with ethical and legal considerations in dental practice.
- Learning about the latest advancements and trends in the field of dentistry.
- Developing skills in effective patient communication and rapport-building.

Exploring opportunities for specialization and postgraduate education in dentistry

Organizing a Guest Lecture on the Tooth Tech- Innovating future of for dental students can be highly beneficial. It could cover various aspects such as career opportunities, specialization options, further education paths, research opportunities, entrepreneurship possibilities, and emerging trends in the field.

A report on workshop on "Tooth Tech- Innovating future of Dentistry"

1. Introduction: The Tooth Tech- Innovating future of Dentistry Guest Lecture typically includes various aspects related to dental practice, such as clinical skills training, dental procedures, patient management, ethical considerations, and professional development. It may cover topics like dental anatomy, oral pathology, restorative dentistry, periodontics, endodontics, and oral surgery. Guest Lecture may also focus on the latest advancements in dental technology and techniques, as well as addressing challenges faced by dental professionals in their practice.

2. Day 1

9:30 - 10:00 am - Inauguration:

Dr. Anand Shigli, Dean of DY Patil Dental School, inaugurated the programme , emphasizing the importance of how to utilize techniques for increasing clinical skills.

10:00 - 11:00 am - Introduction to Tooth Tech- Innovating future of Dentistry

Dr. Santosh Hugar provided an insightful introduction overview of BDS program, career prospects and the role of dentist in health care.

11:05 am - 12:00 noon – Nanotechnology

Dr. Santosh Hugar highlighted the fundamentals of Nanotechnology in future dentistry and how it helps to improve practice outcome

12:00 - 1:00 pm – Clinical dentistry.

In this session Dr Santosh Hugar covered various hand on clinical procedure such as dental examinations cavity preparations and restorations

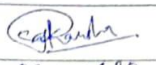

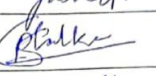

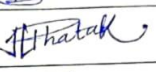

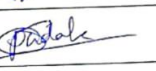

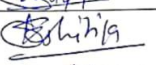

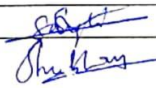

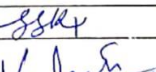

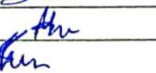

1:00 - 1:30 pm – Valedictory and Certificate distribution

3. Conclusion: This Guest Lecture created positive attitude among the students of college and it will definitely helps the students build career in BDS degree and motivation of practicing clinical dentistry

4. Acknowledgments: A special thanks to Dr. Anand Shigli, for their contributions to the success of the Guest Lecture. Thanks also to all participants for their active engagement and contributions

A Report on Guest Lecture on

"Unlocking potential growth in Dentistry"

Jointly organized by

Dept. of Conservative Dentistry and Endodontics
DY Patil Dental School, Pune

Date-16/11/2021 Venue –Conference Hall, Central Library

Background-

The field of dentistry is undergoing significant transformation, driven by advancements in technology, changes in patient demographics, and evolving healthcare policies. To unlock potential growth, dental practices and the broader industry must adapt to these changes and leverage emerging opportunities.

AIM:-

The aim of this exploration is to identify and analyze key strategies and opportunities that can drive significant growth in the dental industry.

OBJECTIVE:- The objective of Guest Lecture for dental students could include:

- Optimize Practice Management:
- Promote Lifelong Learning
- Enhance Patient-Centered Care:

SCOPE-

The scope of this exploration encompasses a comprehensive range of topics and areas relevant to dental students, with the goal of preparing them to effectively contribute to the growth and advancement of the dental industry.

LEARNING OUTCOMES: - The learning outcomes of Unlocking potential growth in Dentistry Guest Lecture for dental students may include:

- Understand and Apply Technological Advancements:
- Commit to Lifelong Learning and Professional Development:.
- Promote Ethical and Professional Practice:
- Engage with Research and Innovation:

.

2. Day 1

9:30 - 10:00 am - Inauguration:

Dr. Anand Shigli, Dean of DY Patil Dental School, inaugurated the workshop, emphasizing the importance of applying good clinical skills.

10:00 - 11:00 am - Introduction to Dental Vista-Beyond the chair

Dr. Vishwas Patil provided an insightful introduction overview of BDS program, career prospects and the role of dentist in health care.

11:05 am - 12:00 noon – Basic sciences

Dr. Vishwas Patil highlighted the fundamentals of anatomy physiology and biochemistry relevant to dentistry

12:00 - 1:00 pm – Clinical dentistry.

In this session Dr Vishwas Patil covered various hand on clinical procedure such as dental examinations cavity preparations and restorations

1:00 – 1.30 pm – Oral health promotion and preventive dentistry

3. Conclusion: This Guest Lecture created positive attitude among the students of college and it will definitely helps the students build career in BDS degree and motivation of practicing clinical dentistry

4. Acknowledgments: A special thanks to Dr. Anand Shigli, for their contributions to the success of the Guest Lecture. Thanks also to all participants for their active engagement and contributions.

A Report on Guest Lecture on

"Dental Dynamics"

Jointly organized by

Dept. of Conservative Dentistry and Endodontics
DY Patil Dental School, Pune

Date-19/11/2019 Venue –Conference Hall, Central Library

Background-

Dental Dynamics Guest lecture would helps the students to understand the various career option including specialization in further degree, selecting emerging trend and advancement in the field of dentistry.

AIM:-

The aim of conducting a Guest lecture on the Dental Dynamics for dental students is to provide them with comprehensive information about the career opportunities, specializations, and advancements available in the field. This workshop can cover topics such as career pathways, postgraduate options, emerging trends in dentistry, research opportunities, and the importance of continuing education.

OBJECTIVE:- The objective of a Guest lecture for dental students could include:

- Enhancing clinical skills
- Promoting professional development
- Introducing new technologies

SCOPE-

Organizing a Guest lecture on the Dental Dynamics for dental students can be highly beneficial. It could cover various aspects such as career opportunities, specialization options, further education paths, research opportunities, entrepreneurship possibilities, and emerging trends in the field.

LEARNING OUTCOMES: - The learning outcomes of a Dental Dynamics Guest lecture for dental students may include:

- Understanding the scope of practice for BDS graduates, including clinical, research, and academic pathways.
- Familiarization with ethical and legal considerations in dental practice.
- Learning about the latest advancements and trends in the field of dentistry.
- Developing skills in effective patient communication and rapport-building.
- Exploring opportunities for specialization and postgraduate education in dentistry.

Schedule

Time	**Program Particulars**	
9.00 am	Registration	
9.30 -10.00 am	Inauguration	Dr.Anand Shigli, Dean, DY Patil Dental School
10.00 -11.00 am	Introduction Dental Dynamics	Dr. Vijay Deshmukh (BDS, MDS Periodontics)
11.00-11.05 am	**Tea Break**	
11.05-12.00 noon	Team work	Dr. Vijay Deshmukh (BDS, MDS Periodontics)
12.00 1.00 pm	Networking and Discussion	Dr. Vijay Deshmukh (BDS, MDS Periodontics)
1.00-1.30 pm	Valedictory and Certificate distribution	Dr. Arti Hajaranvis

A report on Guest lecture on "Dental Dynamics"

1. Introduction: The Guest lecture typically includes various aspects related to dental practice, such as clinical skills training, dental procedures, patient management, ethical considerations, and professional development. It may cover topics like dental anatomy, oral pathology, restorative dentistry, periodontics, endodontics, and oral surgery. Guest lecture may also focus on the latest advancements in dental technology and techniques, as well as addressing challenges faced by dental professionals in their practice.

2. Schedule

9:30 - 10:00 am - Inauguration:

Dr. Anand Shigli, Dean of DY Patil Dental School, inaugurated the workshop, emphasizing the importance of scope after BDS..

10:00 - 11:00 am - Introduction to Dental Dyanamics

Dr Vijay Deshmukh. provided an insightful introduction overview of BDS program, career prospects and the role of dentist in health care.

11:05 am - 12:00 noon – Team work

Dr. Vijay Deshmukh. Highlighted the fundamentals of team work and how it heps to solveproblem

12:00 - 1:00 pm – Networking and Discussion.

In this session Dr Vijay Deshmukh. Covered various important aspects of social media utilization

1:00 - 1:30 pm – Valedictory and Certificate distribution

3. Conclusion: This Guest lecture created positive attitude among the students of college and it will definitely helps the students build career in BDS degree and motivation of practicing clinical dentistry

4. Acknowledgments: A special thanks to Dr. Anand Shigli, for their contributions to the success of the Guest lecture. Thanks also to all participants for their active engagement and contributions

A Report of One Day Workshop on

"3D Printing in Dentistry"

Jointly organized by

Dept. of Conservative Dentistry and Endodontics
DY Patil Dental School, Pune

Date-10/08/2023 Venue –Conference Hall, Central Library

Background-

A 3D printing workshop for dental students typically covers various aspects such as Introduction to 3D printing technology, Explanation of the basics of 3D printing, including different printing methods, materials used, and applications in dentistry**.**

AIM:

The aim of a 3D printing workshop in a dental college could be to introduce students to the application of 3D printing technology in dentistry, teaching them how to use 3D printers to create dental models, prosthetics, surgical guides, and other tools. It can also provide hands-on experience in designing and producing custom dental solutions, fostering innovation and enhancing learning in the field of dentistry.

OBJECTIVE:-

The objective of a 3D printing workshop in dentistry is to train dental professionals on the latest technologies and techniques in utilizing 3D printing for various applications in dentistry, such as creating dental models, surgical guides, crowns, bridges, and orthodontic appliances. It aims to enhance their skills, knowledge, and proficiency in integrating 3D printing into their practice to improve patient care, treatment outcomes, and efficiency. Additionally, workshops may focus on understanding the equipment, software, materials, and regulatory aspects related to 3D printing in dentistry

SCOPE-

The scope of 3D printing workshops in dentistry is significant and expanding. Dentists can use 3D printing to create dental implants, crowns, bridges, and even orthodontic appliances with precision and customization. Workshops can cover topics such as digital design, material selection, printing techniques, and post-processing methods specific to dental applications.

LEARNING OUTCOMES: - The learning outcomes of a 3D printing workshop in dentistry may include:

- Understanding the principles and technologies behind 3D printing in dentistry.
- Proficiency in operating 3D printers and relevant software for dental applications.
- Ability to design and customize dental models, prosthetics, and surgical guides using CAD software.
- Knowledge of different materials suitable for 3D printing in dentistry and their applications.
- Skill in troubleshooting common issues encountered during the 3D printing process**.**

A report on workshop on "3D printing in Dentistry"

1. Introduction: This workshop aims to provide a comprehensive introduction to the applications of 3D printing technology in dentistry. Participants will gain hands-on experience and theoretical knowledge about various aspects of 3D printing, including materials, software, and printing techniques tailored specifically for dental applications.

2. Day 1

9:30 - 10:00 am - Inauguration:

Dr. Anand Shigli, Dean of DY Patil Dental School, inaugurated the workshop, emphasizing the importance of qualitative research in the dental field.

10:00 - 11:00 am - Introduction to 3D Printing in Dentistry

Dr. Yogesh Gandhi provided an insightful introduction overview of 3D printing in Dentistry

11:05 am - 12:00 noon – Digital imaging and Modeling

Dr. Yogesh Gandhi highlighted how to explore the process of creating digital models from patients scan using software like CAD

12:00 - 1:00 pm – Designing dental appliances.

In this session Dr Yogesh Gandhi explained how to design various dental appliances.

2:00 - 3:00 pm – Printer setup and operation

Dr Yogesh Gandhi provided hands on training on setting up and calibrating 3D printers specifically for dental appliances

3:30 - 4:00 pm - Valedictory and Certificate distribution

4. Conclusion: This workshop created positive attitude among staff and students of college and it will definitely helps the students apply digital dentistry using scans like CAD

5. Acknowledgments: A special thanks to Dr. Anand Shigli, for their contributions to the success of the workshop. Thanks also to all participants for their active engagement and contributions

In this session Dr Yogesh Gandhi explained how to design various dental appliances.

2:00 - 3:00 pm – Printer setup and operation

Dr Yogesh Gandhi provided hands on training on setting up and calibrating 3D printers specifically for dental appliances

3:30 - 4:00 pm - Valedictory and Certificate distribution

4. Conclusion: This workshop created positive attitude among staff and students of college and it will definitely helps the students apply digital dentistry using scans like CAD

5. Acknowledgments: A special thanks to Dr. Anand Shigli, for their contributions to the success of the workshop. Thanks also to all participants for their active engagement and contributions

A Report on Guest Lecture on

"Subscription Based Coverage in Dentistry"

Jointly organized by

Dept. of Conservative Dentistry and Endodontics
DY Patil Dental School, Pune

Date-06/08/2021 Venue –Conference Hall, Central Library

Background-

A subscription-based coverage Guest Lecture in dentistry likely focuses on educating dental professionals on the various aspects of implementing subscription-based models in their practices. This could include understanding the benefits of such models, learning how to set up and manage subscription plans, navigating legal and regulatory considerations, and optimizing patient communication and engagement strategies. The Guest Lecture may also cover case studies and best practices from dental practices that have successfully implemented subscription-based coverage models

AIM:
A subscription-based coverage for dentistry aims to provide individuals with regular access to dental services in exchange for a monthly or yearly fee. It's designed to make dental care more affordable and accessible for subscribers, often including preventive care, routine check-ups, and sometimes discounts on additional services or treatments.

OBJECTIVE: The objective of subscription-based coverage in dentistry is to provide patients with regular access to dental care in exchange for a recurring fee. This model aims to make dental services more affordable and accessible for patients while ensuring consistent preventive care and early intervention for dental issues. It also helps dental practices maintain steady revenue streams and build long-term relationships with patients.

SCOPE-

Subscription-based coverage in dentistry offers a comprehensive approach to dental care, typically including preventive services like regular check-ups, cleanings, and X-rays, as well as coverage for basic and major dental procedures. This model allows patients to access dental care without worrying about high out-of-pocket costs for each visit or procedure, promoting regular preventive care and early intervention, which can lead to better oral health outcomes. Additionally, some subscription-based plans may include discounts on cosmetic procedures or other elective treatments. Overall, the scope of subscription-based coverage in dentistry aims to make dental care more accessible, affordable, and predictable for patients.

LEARNING OUTCOMES: - Subscription-based coverage in dentistry can lead to several positive learning outcomes:

- **Financial Responsibility:** Patients learn the value of regular payments for preventive dental care, which may lead to better financial planning and management of oral health expenses.
- **Preventive Care Emphasis:** With regular payments, patients are incentivized to seek preventive care rather than waiting until dental issues become severe, promoting better oral health habits.

- **Consistent Care:** Subscription-based models often encourage regular dental visits, leading to consistent monitoring of oral health and early detection of any issues, which can prevent more serious problems later on.

Schedule

Time	**Program Particulars**	
9.00 am	Registration	
9.30 -10.00 am	Inauguration	Dr.Anand Shigli, Dean, DY Patil Dental School
10.00 -11.00 am	Introduction subscription based Dentistry	Dr. Girish Nanjannwar (BDS,MDS Endodontics)

A report on Guest lecture on "subscription based coverage in dentistry"

1. Introduction: This enlightening Guest lecture on the emerging trend of subscription-based coverage in dentistry will help the students how this innovative model is reshaping patient care and practice management in the dental industry. From increased patient engagement to predictable revenue streams, learn about the benefits for both practitioners and patients alike. Gain insights into implementing and marketing subscription-based plans effectively to enhance their practice's growth and sustainability.

2. Day 1

9:30 - 10:00 am - Inauguration:

Dr. Anand Shigli, Dean of DY Patil Dental School, inaugurated the event, emphasizing the importance of qualitative research in the dental field.

10:00 - 11:00 am - Introduction to **subscription based coverage in dentistry**

.Dr. Girish Nanjannwar provided an insightful introduction overview of subscription based coverage in dentistry

11:05 am - 12:00 noon – Understanding the benefits and challenges of subscription based coverage

Dr. Girish Nanjannwar highlighted the fundamentals Understanding the benefits and challenges of subscription based coverage

12:00 - 1:00 pm – Exploring different type's subscription based dental plans.

In this session Dr. Girish Nanjannwar covered various subscription based dental plans

1:00 - 1:30 pm – Valedictory and Certificate distribution

3. Conclusion: This Guest Lecture created positive attitude among the students of college and it will definitely helps the students implement this type practice in their future dentistry.

4. Acknowledgments: A special thanks to Dr. Anand Shigli, for their contributions to the success of the Guest Lecture. Thanks also to all participants for their active engagement and contributions

A Report of One Day Workshop on

"Lasers in Dentistry"

Jointly organized by

Dept. of Conservative Dentistry and Endodontics
DY Patil Dental School, Pune

Date-02/09/2020 Venue –Conference Hall, Central Library

Background-

A workshop on lasers in dentistry typically covers the use of various types of lasers in dental procedures, including soft tissue surgery, hard tissue treatments, periodontal therapy, and teeth whitening. It may include discussions on the latest advancements in laser technology, safety protocols, clinical applications, case studies, hands-on demonstrations, and practical tips for integrating lasers into dental practice.

AIM:

The aim of a workshop on lasers in dentistry is typically to educate dental professionals about the applications, benefits, and proper use of laser technology in various dental procedures. This includes but is not limited to treatments such as cavity detection, gum disease treatment, teeth whitening, and oral surgery. The workshop may cover topics such as different types of dental lasers, safety protocols, clinical techniques, and hands-on training to enhance skills and proficiency in incorporating lasers into dental practice effectively.

OBJECTIVE:

The objective of lasers in dentistry workshop is typically to educate dental professionals about the principles, applications, and safety considerations of using lasers in various dental procedures. It aims to provide hands-on training, discuss current research, and demonstrate how lasers can be effectively utilized for tasks such as soft tissue surgery, cavity preparation, periodontal treatment, and teeth whitening.

SCOPE:

Workshop on lasers in dentistry could cover various topics such as:

- Introduction to laser dentistry: History, principles, and types of lasers used in dentistry.
- Applications of lasers in various dental procedures: Soft tissue surgeries, hard tissue treatments, periodontal therapy, endodontic procedures, and more
- Safety considerations and protocols for using lasers in dentistry.

LEARNING OUTCOMES: The learning outcomes of a workshop on lasers in dentistry may include:

- Understanding the principles of laser technology and its application in dentistry.
- Familiarity with different types of dental lasers and their specific uses.
- Proficiency in laser safety protocols and precautions.
- Learning the clinical applications of lasers in various dental procedures such as soft tissue surgery, hard tissue procedures, and periodontal therapy.

A report on workshop on "Lasers in Dentistry"

1. Introduction: Certainly! A workshop on lasers in dentistry would typically cover the principles, applications, and benefits of using lasers in various dental procedures..

2. Day 1

9:30 - 10:00 am - Inauguration:

Dr. Anand Shigli, Dean of DY Patil Dental School, inaugurated the workshop, emphasizing the importance of qualitative research in the dental field.

10:00 - 11:00 am - Introduction to Lasers in dentistry

Dr. Lavisha Garg provided an insightful introduction overview of lasers in dentistry and its wide view

11:05 am - 12:00 noon – Application of lasers

Dr. Lavisha Garg highlighted the different use of lasers in managing and hard soft tissues.

12:00 - 1:00 pm – Pain management.

In this session Dr Lavisha Garg covered how to take care pain after laser application.

2:00 - 3:00 pm – Biostimulation

Dr. Lavisha Garg explained how lasers can stimulate tissue repair and regeneration

3:30 - 4:00 pm - Valedictory and Certificate distribution

3. Conclusion: This workshop created positive attitude among the students of college and it will definitely helps the students build career in BDS degree and motivation of practicing clinical dentistry

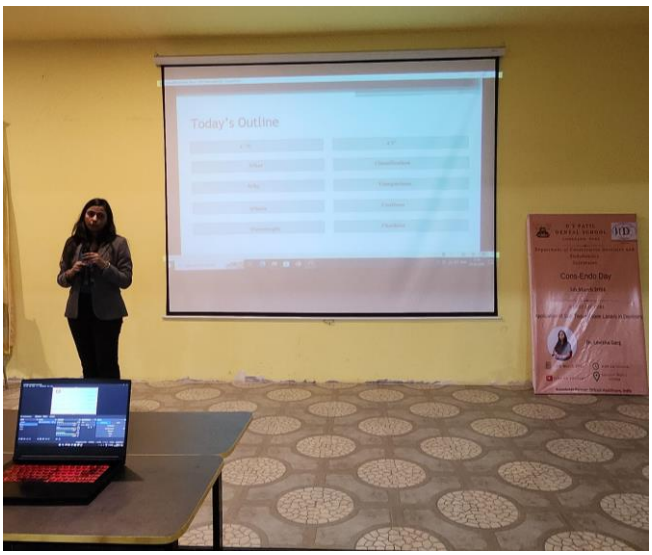

4. Acknowledgments: A special thanks to Dr. Anand Shigli, for their contributions to the success of the workshop. Thanks also to all participants for their active engagement and contributions

A Report on Guest Lecture on

"Emotional dentistry and mental health"

Jointly organized by

Dept. of Conservative Dentistry and Endodontics
DY Patil Dental School, Pune

Date-06/08/2019 Venue –Lecture Hall 4

Background-

Emotional dentistry" is a term that refers to the recognition and consideration of the emotional and psychological aspects of dental care. This concept emphasizes understanding patients' fears, anxieties, and emotional needs during dental procedures, leading to more compassionate and patient-centered care.

AIM:-

The aim of an emotional dentistry and mental health Guest Lecture is to address the psychological aspects of dental care, recognizing the interconnectedness between emotional well-being and oral health. It likely focuses on techniques to manage dental anxiety, stress, and fear, as well as promoting mental wellness among dental professionals and patients.

OBJECTIVE: The objective of an emotional dentistry and mental health Guest Lecture could be to address the emotional and psychological aspects of dental care, such as dental anxiety, fear of procedures, and the impact of oral health on mental well-being.

SCOPE-

The scope of an emotional dentistry and mental health workshop could encompass topics such as:

- Understanding the psychological aspects of dental care: Exploring the emotional impact of dental procedures on patients and strategies for managing dental anxiety.
- Building patient rapport and trust: Techniques for effective communication and establishing a supportive environment in the dental office.
- Stress management for dental professionals: Coping strategies for dealing with the emotional demands of dentistry and preventing burnout.

LEARNING OUTCOMES: The learning outcomes of an emotional dentistry and mental health Guest Lecture might include:

- Understanding the psychological impact of dental treatments on patients.
- Recognizing signs of dental anxiety and related mental health issues in patients.
- Learning effective communication techniques to alleviate patient fears and anxieties.
- Exploring strategies for creating a supportive and empathetic dental practice environment.
- Acquiring skills to manage stress and maintain mental well-being as a dental professional.

A report on Guest Lecture on "Emotional dentistry and mental health"

1. Introduction: Guest Lecture on the intriguing intersection of emotional dentistry and mental health. In this session, we will delve into how emotional well-being impacts dental health and vice versa, highlighting the interconnectedness of mind and body

2. Schedule

9:30 - 10:00 am - Inauguration:

Dr. Anand Shigli, Dean of DY Patil Dental School, inaugurated the Guest Lecture, emphasizing the importance of qualitative research in the dental field.

10:00 - 11:00 am - Introduction to Emotional dentistry and mental health

Mr Raghvan Koli provided an insightful introduction overview of Emotional dentistry and mental health and the role of dentist in health care.

11:05 am - 12:00 noon – Communication skills

Mr. Raghvan Koli highlighted how important of being well approachable for patient while dealing with their problems will solve communication gap and build trust between patient and the dentist.

12:00 - 1:00 pm – Stress Management.

In this session Mr Raghvan Koli covered various hand on clinical procedure such as taking breaks between works, sharing tips with seniors and enhancing clinical skills.

2:00 - 3:00 pm – Case studies and group discussion

Mr Raghvan Koli explained importance of proper case study. Diagnosis and taking the case on platform of discussion

3:30 - 4:00 pm - Valedictory and Certificate distribution

4. Conclusion: The conclusion of an emotional dentistry and mental health Guest Lecture would typically involve summarizing key takeaways, emphasizing the importance of addressing the emotional aspects of dental care, encouraging participants to integrate mental health considerations into their practice, and providing resources for further learning or support. It could also involve encouraging ongoing dialogue and collaboration between dental professionals and mental health professionals to better support patients' overall well-being.

5. Acknowledgments: A special thanks to Dr. Anand Shigli, for their contributions to the success of the Guest Lecture. Thanks also to all participants for their active engagement and contributions

List of Participants

SR. NO.	STUDENT NAME
1.	Bhanushali Mrunalini Ajit
2.	Bhavsar Aayushi Govind
3.	Ghogare Saurabh Subhash
4.	Gupta Shikha Gulabchand
5.	Kachave Kalyansingh Vishwanath
6.	Masal Maruti Shravan
7.	Mehta Shreya Jitendra
8.	Mhaskar Shivani Dnaneswar
9.	Padri Rohankumar Chintamani
10.	Sadique Neelam Mohammad
11.	Salunkhe Jayashree Shrirang
12.	Saste Kajal Rajkumar
13.	Sharma Shrutika Krishnakumar
14.	Shelake Neha Arun
15.	Shirsat Sonal Bhushan
16.	Attar Asiya Mubarak
17.	Barode Subhangi Subhash
18.	Deokar Snehal Dilip
19.	Deshmane Sweta Mahadev
